SUBJECT INDEX*

A

Abdomen, stab wounds of, selective surgical intervention for (Wilder, Habermann, and Schachner), 231

Abdominal aneurysm and horseshoe kidney, case report and collective review of (Minken and Rob), 719

aorta, aneurysm of branches of, diagnosis, management, and results (Smith and Hill), 509

aortic aneurysms, is excision optimum treatment? (Bernstein, Fisher, and Varco), 83

aneurysmectomy, control of lumbar arteries during, simple technique for (Olander and Hadidian), 561

surfaces, various, role of, in absorption of toxic strangulation fluid (Johnston, Barnett, and Hilbun), 270

wall closure, simple, in Vietnamese civilian war casualties (Heimburger and Campbell), 858

Abscess, solitary, of liver in newborn infant (Sharma and Kumar), 812

Absorption, intestinal, of cholesterol, essential role of bile in (Buchwald and Gebhard), 791

Acidosis and alkalosis, respiratory, ventricular fibrillation threshold in (Dong, Stinson, and Shumway), 602

Adenocarcinoma, primary, of appendix (Steinberg and Cohn), 644

Adhesive(s), tissue, alkyl 2-cyanoacrylate, toxicity of, in brain and blood vessels (Lehman and Hayes), 915

cyanoacrylate, n-butyl, with intestinal anastomosis (Matsumoto et al.), 567

in treatment of recurrent spontaneous pneumothorax (Matsumoto et al.), 573

Alkalosis and acidosis, respiratory, ventricular fibrillation in (Dong, Stinson, and Shumway), 602

Alkyl 2-cyanoacrylate tissue adhesives, toxicity of, in brain and blood vessels (Lehman and Hayes), 915

Allotransplantation of pancreas and duodenum along with kidney in diabetic nephropathy (Kelly et al.), 827

Anastomosis(es), intestinal, with n-butyl cyanoacrylate tissue adhesive (Matsumoto et al.), 567

vascular, at surgery, evaluation of, and detection of level of arterial obstruction (Border), 713

Anatomic location of lower esophageal ring (Johnston and Griffin), 528

Anesthesia in large experimental animals (Perper and Najarian), 824

Anesthetic block, topical, of small bowel, pancreatic secretory response to (Slayback et al.), 591

Aneurysm(s), abdominal aortic, is excision optimum treatment? (Bernstein, Fisher, and Varco), 83

and horseshoe kidney, case report and collective review of (Minken and Rob), 719

of branches of abdominal aorta, diagnosis, management, and results (Smith and Hill), 509

of portal vein, report of two cases, one resulting in thrombosis and spontaneous rupture (Thomas), 550

traumatic, of aorta, natural history of (Bennett and Cherry), 516

Aneurysmectomy, abdominal aortic, control of lumbar arteries during, simple technique for (Olander and Hadidian), 561

Angiographic and clinical concept, new, in functional circulatory disorders of lower extremities due to regional hemokinetic imbalance (Khobreh and Roy), 880

Antibody production in mice after thermal and tourniquet trauma (Markley, Smallman, and Evans), 896

Antigenicity of homografted veins (Schwartz et al.), 471

Antilymphoid globulin, interspecies reactivity and intraspecies specificity of (Putnam et al.), 951

Antithrombotic surface, new, development and in vitro and in vivo characteristics (Salzman et al.), 1

Antral border and gastric ulcer (Ruding), 495

Aorta, abdominal, aneurysms of branches of, diagnosis, management, and results (Smith and Hill), 509

traumatic aneurysms of, natural history of (Bennett and Cherry), 516

*January, pp. 1-168; February, pp. 169-332; March, pp. 333-494; April, pp. 495-660; May, pp. 661-826; June, pp. 827-998.

Aortic aneurysmectomy, abdominal, control of lumbar arteries during, simple technique for (Olander and Hadidian), 561
aneurysms, abdominal, is excision optimum treatment? (Bernstein, Fisher, and Varco), 83
valve, replacement of with ball-valve prosthesis, early hemodynamic state after (Rastelli and Kirklin), 873
mitral valves, and pericardium, diffusion respiration and electrolyte composition of (Enerson, Clevenger, and Berman), 443
Aplasia, gonadal, associated with gastrointestinal bleeding (Redondo and Swenson), 285
Appendicitis, acute, in hernias, report of 10 cases (Carey), 236
Appendix, primary adenocarcinoma of (Steinberg and Cohn), 644
Arterial catheterization, selective, field of increasing dimensions (Chavez), 634
obstruction, detection of level of, and evaluation of vascular anastomoses at surgery (Border), 713
portography, indications and technique (Bron and Fisher), 137
pressure monitoring, direct, simple, inexpensive unit for (Moss), 711
wall, atrophy of, incident to localized chronic hypotension (Husni and Manion), 611
Arteriovenous fistulas, coronary, diagnosis and surgical management, report of 15 cases (Effler et al.), 41
Artery(ies), carotid, internal, of primates, flow in, effect of head-down tilt and norepinephrine on (Tindall et al.), 248
ligation, alleviation of experimental epilepsy by (Payan), 768
celiac, symptomatic stenosis of, due to constriction by neurofibrous tissue of celiac ganglion (Snyder, Mahoney, and Rob), 372
external iliac and common femoral, autogenous replacement of, by common iliac hypogastric advancement (Stoney, Ehrenfeld, and Wylie), 377
lumbar, control of, during abdominal aortic aneurysmectomy, simple technique for (Olander and Hadidian), 561
mammary, internal, retrograde implantation, posterior myocardial revascularization by (Urschel and Morales), 59
popliteal, isolated segments, success of bypass vein grafts in patients with (Mannick et al.), 17
Asthma and nephrosis associated with multiple polyposis in 6-year-old child, review and report of case (Abramson), 288
Atrium, left, giant, plication of, at operation for severe mitral regurgitation (Johnson et al.), 118
Atrophy of arterial wall incident to localized chronic hypotension (Husni and Manion), 611
Axillary and groin dissection, altered lymphatic dynamics following, relationship to treatment policies for malignant melanoma (Ariel and Resnick), 210

B

Ball-valve prosthesis, replacement of aortic valve with, early hemodynamic state after (Rastelli and Kirklin), 873
Benign tumors of gallbladder (Arbab and Brasfield), 535
Bile, essential role of, in intestinal absorption of cholesterol (Buchwald and Gebhard), 791
flow and composition of, effects of portacaval shunts on (Neistadt, Lima, and Schwartz), 427
Bilharzial cirrhosis, esophageal varices in, gastroesophageal decongestion and splenectomy in treatment of, further studies (Hassab), 169
Biochemical changes, associated with experimental endotoxemia, evaluation of, with transaminase activity (Sleeman, Jennings, and Hardaway), 945
Bleeding, chronic, of duodenal ulcer in childhood, managed by hemigastrectomy and vagotomy (Lucas and Benson), 478
gastrointestinal, associated with gonadal aplasia (Redondo and Swenson), 285
Blood flow, regional cerebral, and cerebral function, relation (Powers, Roe, and Creel), 74
and renal oxygen consumption, comparison of, with cooling and rewarming (Minor, Shumacker, and Wideman), 256
vessels and brain, toxicity of alkyl 2-cyanoacrylate tissue adhesives in (Lehman and Hayes), 915
large, in dogs, freezing injury to (Gage, Fazekas, and Riley), 748
replacement, by aluminum prostheses (McCann, Saez, and McHugh), 588
whole, norepinephrine, Dibenzyline, dextran, and balanced saline solutions, comparison of effects of, in treatment of experimental shock (Rush), 938
Bobbs centennial, featuring first cholecystotomy (Sparkman), 965
Bowel, small, topical anesthetic block of, pancreatic secretory response to (Slayback et al.), 591

Bowel, small—Cont'd
ulceration, due to enteric-coated potassium ingestion in two-year-old child (Hartman, Greaney, and Rottapel), 814
Bradykinin, serotonin, and histamine, relationship to carcinoid syndrome (Gardner et al.), 846
Brain and blood vessels, toxicity of alkyl 2-cyanoacrylate tissue adhesives in (Lehman and Hayes), 915
heterotopic, in nasopharynx and soft palate, report of two cases (Zarem et al.), 483
Bronchial varices in mitral stenosis, causing massive hemorrhage (Nennhaus and Hunter), 556
Buffering, sequential, extracellular fluid replacement, and hemodilution, effects of, in hemorrhagic shock (Tragus, Parkins, and Baue), 795
Bypass vein grafts, saphenous, for femoropopliteal occlusive disease, reappraisal (Darling, Linton, and Razzuk), 31
success of, in patients with isolated popliteal artery segments (Mannick et al.), 17

C

Cancer, colon, inhibition of, by viral warts (Young), 382
of posterior pharyngeal wall, excision of, with preservation of normal larynx, new surgical approach (Harrold), 498
Carcinoid syndrome, studies of and relationship to serotonin, bradykinin, and histamine (Gardner et al.), 846
Carcinoma, liver, primary and secondary, partial hepatectomies and second-look procedures for, prolonged survivals after (Friesen, Hardin, and Kittle), 203
Cardia and hiatus hernia, opening of (Johnson), 177
Cardiac valve prostheses, sewing ring healing of (Berger et al.), 102
and vascular implants, comparative study, in relation to thrombosis (Hufnagel et al.), 11
Carotid artery, internal, of primates, flow in, effect of head-down tilt and norepinephrine on (Tindall et al.), 248
ligation, alleviation of experimental epilepsy by (Payan), 768
sinus nerve, electrical stimulation of, effects of, in reversal of experimentally induced hypertension (Neistadt and Schwartz), 923
Catheter, Fogarty, use of, accident of embolectomy associated with (Hogg and MacDougall), 716
Catheterization, arterial, selective, field of increasing dimensions (Chavez), 634
Celiac artery stenosis, symptomatic, due to constriction by neurofibrous tissue of celiac ganglion (Snyder, Mahoney, and Rob), 372
ganglion, constriction by neurofibrous tissue, symptomatic celiac artery stenosis due to (Snyder, Mahoney, and Rob), 372
Centennial, Bobbs, featuring first cholecystotomy (Sparkman), 965
Cerebral blood flow, regional, and cerebral function, relation (Powers, Roe, and Creel), 74
function and regional cerebral blood flow, relation (Powers, Roe, and Creel), 74
palsy and poliomyelitis, similarities of response to sympathectomy in release of vasoconstriction (Holmes, Gilfillan, and Cuthbertson), 129
perfusion, total, applicability of technique to several species of experimental animals (Moss), 265
Cervicomediastinal vascular injury (Imamoglu, Read, and Huebl), 274
Chemotherapy (intra-arterial), combined irradiation, and surgery for treatment of sarcomas of extremities (Yonemoto, Byron, and Jacobs), 355
Cholangiography, percutaneous, in anatomical diagnosis of jaundice, and its influence on treatment (Thorbjarnarson), 347
Cholecystitis and cholelithiasis, acute and chronic, personal experiences with 1,261 cases of (Meyer, Capos, and Mittelpunkt), 661
Cholecystographic visualization of gallbladder, relationship of, to incidence of choledocholithiasis (Woolam, Freeman, and Priestley), 669
Cholecystotomy, first, in Bobbs centennial (Sparkman), 965
Choledochoduodenostomy, side-to-side, techniques of (Degenshein and Hurwitz), 972
Choledocholithiasis, incidence of, relationship of cholecystographic visualization of gallbladder to (Woolam, Freeman, and Priestley), 669
Cholelithiasis and cholecystitis, acute and chronic, personal experiences with 1,261 cases of (Meyer, Capos, and Mittelpunkt), 661
Cholesterol, intestinal absorption of, essential role of bile in (Buchwald and Gebhard), 791
serum, effects of surgical stress on (Symbas, Abbott, and Ende), 221
Circulation, cross, prolonged, for reversible pulmonary failure (Bryant et al.), 932
intrahepatic, in shock, pharmacodynamic of (Mahfouz and Aida), 755

Circulatory disorders, functional, of lower extremities due to regional hemokinetic imbalance, with new clinical and angiographic concept (Khobreh and Roy), 880
Cirrhosis, bilharzial, esophageal varices in, gastroesophageal decongestion and splenectomy in treatment of, further studies (Hassab), 169
hepatic, and portal hypertension, portarenal shunt for (Simeone and Hopkins), 153
Cold injury, use of disulfine blue for evaluation of (Talwar et al.), 564
Colon cancer inhibition by viral warts (Young), 382
gangrene, massive, due to distal obstruction (Ambruoso and Feraru), 228
and ileocolon, interposition of, in surgical reconstruction of diseased esophagus (Grimes), 487
Colonic reconstruction of esophagus in infants and children (Gross and Firestone), 955
Compliance of liver (Wood and Tait), 407
Coronary arteriovenous fistulas, diagnosis, and surgical management, report of 15 cases (Effler et al.), 41
Corticosteroid treatment, topical, decreased scar formation with (Berliner et al.), 619
Cortisol, physiological role of, in plasma volume response to hemorrhage (Marks, King, and McCarthy), 422
Cross-circulation, prolonged, for reversible pulmonary failure (Bryant et al.), 932
Cyanoacrylate, n-butyl, tissue adhesive, with intestinal anastomosis (Matsumoto et al.), 567
2, alkyl, tissue, toxicity of, in brain and blood vessels (Lehman and Hayes), 915
tissue adhesive in treatment of recurrent spontaneous pneumothorax (Matsumoto et al.), 573
Cysts, hepatic, solitary (Clark et al.), 687

D

Decongestion, gastroesophageal, and splenectomy in treatment of esophageal varices in bilharzial cirrhosis, further studies (Hassab), 169
Dextran, norepinephrine, Dibenzyline, whole blood, and balanced saline solutions, comparison of effects of, in treatment of experimental shock (Rush), 938
Diabetic nephropathy, allotransplantation of pancreas and duodenum along with kidney in (Kelly et al.), 827
Dibenzyline, norepinephrine, dextran, whole blood, and balanced saline solutions, comparison of effects of, in treatment of experimental shock (Rush), 938
Diffusion respiration and electrolyte composition of mitral valves, aortic valves, and pericardium (Enerson, Clevenger, and Berman), 443
Dissection, groin and axillary, altered lymphatic dynamics following, relationship to treatment policies for malignant melanoma (Ariel and Resnick), 210
Disulfine blue for evaluation of cold injury, use of (Talwar et al.), 564
Drainage, sump, gastric, with water seal monitor (Hughes and Wootton), 192
unit, suction, low negative pressure, efficient (Freake and Caldwell), 200
underwater, new (Engelsher), 196
Duodenal ulcer, chronic bleeding of, in childhood, managed by hemigastrectomy and vagotomy (Lucas and Benson), 478
surgery, role of vagotomy in (Bryant, Klein, and Griffen), 864
vagotomy-pyloroplasty for, critical appraisal of early results (Herrington), 698
and pancreas, allotransplantation of, along with kidney in diabetic nephropathy (Kelly et al.), 827
Dynamics, altered lymphatic, following groin and axillary dissection, relationship to treatment policies for malignant melanoma (Ariel and Resnick), 210

E

Edema, pulmonary, iatrogenic, in surgical patients (Adriani et al.), 183
Electrodes, pacemaker, anchoring of, simplified method (Lui), 380
Electrolyte composition and diffusion respiration of mitral valves, aortic valves, and pericardium (Enerson, Clevenger, and Berman), 443
Embolectomy, accident of, associated with use of Fogarty catheter (Hogg and MacDougall), 716
Embolism, pulmonary, venous air, hemodynamic reappraisal of (Chiu et al.), 816
Endocrine exophthalmos, surgical amelioration of (Black, Thomas, and Jurkiewicz), 544
Endotoxemia, experimental, biochemical changes associated with, evaluation of, with transaminase activity (Sleeman, Jennings, and Hardaway), 945
Endotoxin, resistance of isolated canine heart to (Londe et al.), 466
Electrical stimulation of carotid sinus nerve, effects of, in reversal of experimentally induced hypertension (Neistadt and Schwartz), 923
Enteric-coated potassium ingestion, small-bowel ulceration due to, in two-year-old child (Hartman, Greaney, and Rottapel), 814

Eosinophilic infiltrate (granuloma), recurrent, of ileum causing intussusception in two-year-old child (McGreevy et al.), 280
Epicardiectomy, effect on myocardial function (Agrawal et al.), 399
Epilepsy, experimental, alleviation of, by carotid artery ligation (Payan), 768
Epithelium, intestinal, mechanism for normal turnover of, in pathogenesis of intestinal lesion of deep hypothermia and proposed relationship to that of irreversible shock (Black-Schaffer et al.), 904
Erythrocytes, human, and metal surfaces, interaction between (Sawyer, Ogoniak, and Boddy), 448
Escherichia coli and adjuvant substances, effect on peritoneal absorption, in pathogenesis of peritonitis (Sleeman et al.), 393
and hemoglobin, effect on peritoneal absorption, in pathogenesis of peritonitis (Filler and Sleeman), 385
Esophageal ring, anatomic location of (Johnston and Griffin), 528
varices in bilharzial cirrhosis, gastroesophageal decongestion and splenectomy in treatment of, further studies (Hassab), 169
Esophagus, canine, intra-abdominal segment of, significance of, as competent anti-reflux mechanism (Sicular et al.), 784
colonic reconstruction of, in infants and children (Gross and Firestone), 955
diseased, surgical reconstruction of, by interposition of ileocolon and colon (Grimes), 487
of jejunum (Grimes), 325
Exophthalmos, endocrine, surgical amelioration of (Black, Thomas, and Jurkiewicz), 544
Extracellular replacement, fluid, sequential buffering, and hemodilution, effects of, in hemorrhagic shock (Tragus, Parkins, and Baue), 795
Extremities, lower, functional circulatory disorders of, due to regional hemokinetic imbalance, with new clinical and angiographic concept (Khobreh and Roy), 880

F

Femoral, common, and external iliac arteries, autogenous replacement of, by common iliac hypogastric advancement (Stoney, Ehrenfeld, and Wylie), 377
-popliteal occlusions, chronic, venous patch graft reconstruction of (Edwards), 820
Femoropopliteal occlusive disease, saphenous vein bypass grafts for, reappraisal (Darling, Linton, and Razzuk), 31
Fibrillation threshold, ventricular, in respiratory acidosis and alkalosis (Dong, Stinson, and Shumway), 602
Fistula(s), coronary arteriovenous, diagnosis and surgical management, report of 15 cases (Effler et al.), 41
hepaticocutaneous, case report with surgical technique for creation of fistula (Caldwell and Gilchrist), 370
viscerocutaneous, management of (Goldsmith), 361
Fluid, strangulation, toxic, absorption of, role of various abdominal surfaces in (Johnston, Barnett, and Hilbun), 270
Fogarty catheter, use of, accident of embolectomy associated with (Hogg and MacDougall), 716
Fractures, hip, selective conservatism in (Shaftan, Herbsman, and Pavlides), 524
Freezing injury to large blood vessels in dogs (Gage, Fazekas, and Riley), 748
studies of whole organ preservation (Halasz et al.), 417
Frostbite injuries, single and repeated, evaluation of tissue loss following (Minor and Shumacker), 562

G

Gallbladder, benign tumors of (Arbab and Brasfield), 535
cholecystographic visualization of, relationship of, to incidence of choledocholithiasis (Woolam, Freeman, and Priestley), 669
Ganglion, celiac, constriction by neurofibrous tissue, symptomatic celiac artery stenosis due to (Snyder, Mahoney, and Rob), 372
Gangrene, massive, colon, due to distal obstruction (Ambruoso and Feraru), 228
Gastrectomy, pylorus-preserving, as improved operation for gastric ulcer (Maki et al.), 838
Gastric perforation, postsplenectomy (Bryk and Petigrow), 239
sump drainage with water seal monitor (Hughes and Wootton), 192
ulcer and antral border (Ruding), 495
pylorus-preserving gastrectomy as improved operation for (Maki et al.), 838
Gastroesophageal decongestion and splenectomy in treatment of esophageal varices in bilharzial cirrhosis, further studies (Hassab), 169
Gastrointestinal bleeding associated with gonadal aplasia (Redondo and Swenson), 285
Gastrostomy with prosthesis (Redo and Barnes), 320

Globulin, antilymphoid, interspecies reactivity and intraspecies specificity of (Putnam et al.), 951
Gonadal aplasia, associated with gastrointestinal bleeding (Redondo and Swenson), 285
Granuloma (eosinophilic infiltrate), recurrent, of ileum, causing intussusception in two-year-old child (McGreevy et al.), 280
Graft(s), patch, by intestinal submucosa, further application of (Matsumoto et al.), 584
venous, reconstruction, of chronic femoral-popliteal occlusions (Edwards), 820
saphenous vein, bypass, for femoropopliteal occlusive disease, a reappraisal (Darling, Linton, and Razzuk), 31
vein, bypass, success of, in patients with isolated popliteal artery segments (Mannick et al.), 17
Groin and axillary dissection, altered lymphatic dynamics following, relationship to treatment policies for malignant melanoma (Ariel and Resnick), 210

H

Head-down position during hypotension, effect (Tindall et al.), 248
tilt and norepinephrine, effect on flow in internal carotid artery of primates (Tindall et al.), 248
Heart failure, right, experimental, improvement of, by creation of systemic hypertension (Blank and Marriott), 739
ischemic areas of, technique for demonstration of, at operation (Zikria et al.), 608
isolated canine, resistance to endotoxin (Londe et al.), 466
tumors, surgical management (Gerbode et al.), 94
Hemigastrectomy and vagotomy, in managing chronic bleeding duodenal ulcer in childhood (Lucas and Benson), 478
Hemodilution, extracellular fluid replacement, and sequential buffering, effects of, in hemorrhagic shock (Tragus, Parkins, and Baue), 795
Hemodynamic reappraisal, of pulmonary venous air embolism (Chiu et al.), 816
state early after replacement of aortic valve with ball-valve prosthesis (Rastelli and Kirklin), 873
Hemoglobin and *Escherichia coli*, effect on peritoneal absorption, in pathogenesis of peritonitis (Sleeman and Filler), 385
Hemokinetic imbalance, regional, causing functional circulatory disorders of lower extremities, with new clinical and angiographic concept (Khobreh and Roy), 880
Hemolysis with roller pumps, factors influencing (Bernstein and Gleason), 432
Hemorrhage, massive, from bronchial varices in mitral stenosis (Nennhaus and Hunter), 556
plasma volume response to, physiological role of cortisol in (Marks, King, and McCarthy), 422
Hemorrhagic shock, effects of sequential buffering, extracellular fluid replacement, and hemodilution in (Tragus, Parkins, and Baue), 795
Hemostasis, venous, experimental study of (Harris et al.), 891
Hepatectomy(ies), one-stage, with vena caval homotransplant (McBride and Healey), 455
partial, and second-look procedures for primary and secondary carcinoma of liver, prolonged survivals after (Friesen, Hardin, and Kittle), 203
Hepatic cirrhosis and portal hypertension, portarenal shunt for (Simeone and Hopkins), 153
cysts, solitary (Clark et al.), 687
Hepaticocutaneous fistula, case report with surgical technique for creation of fistula (Caldwell and Gilchrist), 370
Hepatography, transumbilical portal, significant adjunct in investigation of liver disease (Piccone et al.), 333
Hernia(s), acute appendicitis in, report of 10 cases (Carey), 236
hiatus, and cardia, opening of (Johnson), 177
inguinal, in Hurler-Hunter syndrome (Coran and Eraklis), 302
Heterotopic brain in nasopharynx and soft palate, report of two cases (Zarem et al.), 483
Hiatus hernia and cardia, opening of (Johnson), 177
Hip fractures, selective conservatism in (Shaftan, Herbsman, and Pavlides), 524
Hirschsprung's disease, new techniques in surgical treatment of (Ikeda), 503
Histamine, serotonin, and bradykinin, relationship to carcinoid syndrome (Gardner et al.), 846
Homografted veins, antigenicity of (Schwartz et al.), 471
Homotransplant(s), liver, auxiliary, canine, effects of portacaval shunt and portal flow occlusion on (Tretbar, Beven, and Hermann), 733
vena caval, with one-stage hepatectomy (McBride and Healey), 455
Homotransplantation of right canine lung (Nakagawa et al.), 576
Horseshoe kidney and abdominal aneurysm, case report and collective review of (Minken and Rob), 719

Hurler-Hunter syndrome, inguinal hernia in (Coran and Eraklis), 302
Hyperamylasemia, nitrogen mustard, and intestinal lesions (Hiatt et al.), 596
Hyperglycemic rebound, rapid detection of, in insulinoma surgery (Getzen and Sode), 868
Hypertension, experimentally induced, reversal of, effects of electrical stimulation of carotid sinus nerve in (Neistadt and Schwartz), 923
portal, and hepatic cirrhosis, portarenal shunt for (Simeone and Hopkins), 153
systemic, improvement of experimental right heart failure by creation of (Blank and Marriott), 739
Hypogastric advancement of common iliac, in autogenous replacement of external iliac and common femoral arteries (Stoney, Ehrenfeld, and Wylie), 377
Hypotension, chronic, localized atrophy of arterial wall incident to (Husni and Manion), 611
head-down position during, effect (Tindall et al.), 248
Hypothermia, deep, pathogenesis of intestinal lesion of, and proposed relationship to that of irreversible shock, including note on mechanism for normal turnover of intestinal epithelium (Black-Schaffer et al.), 904

I

Iatrogenic pulmonary edema in surgical patients (Adriani et al.), 183
Ileocolon and colon, interposition of, in surgical reconstruction of diseased esophagus (Grimes), 487
Ileum, recurrent eosinophilic infiltrate (granuloma) of, causing intussusception in two-year-old child (McGreevy et al.), 280
Ileus of large intestine, obstructive resection for, caused by tumor (Petrov), 694
Iliac, common, hypogastric advancement, in autogenous replacement of external iliac and common femoral arteries (Stoney, Ehrenfeld, and Wylie), 377
external, and common femoral arteries, autogenous replacement of, by common iliac hypogastric advancement (Stoney, Ehrenfeld, and Wylie), 377
Implantation, retrograde, internal mammary artery, posterior myocardial revascularization by (Urschel and Morales), 59
Implants, cardiac and vascular, comparative study, in relation to thrombosis (Hufnagel et al.), 11
Infant's response to stress, assessment of (Talbert et al.), 626
Infarctectomy, emergency, experimental study (Heimbecker et al.), 51
Infarction, massive myocardial, surgery (Heimbecker et al.), 51
Inferior vena cava clip, application of (Flege), 823
Infiltrate, (granuloma), eosinophilic, recurrent, of ileum, causing intussusception in two-year-old child (McGreevy et al.), 280
Ingestion, potassium, enteric-coated, small-bowel ulceration due to, in two-year-old child (Hartman, Greaney, and Rottapel), 814
Inguinal hernia in Hurler-Hunter syndrome (Coran and Eraklis), 302
Insulinoma surgery, rapid detection of hyperglycemic rebound in (Getzen and Sode), 868
Internal carotid artery of primates, flow in, effect of head-down tilt and norepinephrine on (Tindall et al.), 248
organs, artificial, as related to bioelectric properties of vascular system (Sharp), 763
Interposition of ileocolon and colon, in surgical reconstruction of diseased esophagus (Grimes), 487
of jejunum, in surgical reconstruction of diseased esophagus (Grimes), 325
Interspecies reactivity and intraspecies specificity of antilymphoid globulin (Putnam et al.), 951
Intestinal absorption of cholesterol, essential role of bile in (Buchwald and Gebhard), 791
anastomosis with n-butyl cyanoacrylate tissue adhesive (Matsumoto et al.), 567
epithelium, mechanism for normal turnover of, in pathogenesis of intestinal lesion of deep hypothermia and proposed relationship to that of irreversible shock (Black-Schaffer et al.), 904
lesion of deep hypothermia, pathogenesis of, and proposed relationship to that of irreversible shock, including note on mechanism for normal turnover of intestinal epithelium (Black-Schaffer et al.), 904
and nitrogen mustard hyperamylasemia (Hiatt et al.), 596
submucosa as patch graft, further application of (Matsumoto et al.), 584
Intestine, large, obstructive resection for ileus of, caused by tumor (Petrov), 694
Intra-abdominal segment of canine esophagus, significance of, as competent anti-reflux mechanism (Sicular et al.), 784
Intra-arterial chemotherapy, combined irradiation, and surgery for treatment of sarcomas of extremities (Yonemoto, Byron, and Jacobs), 355

Intrahepatic circulation in shock, pharmacodynamic of (Mahfouz and Aida), 755
Intraspecies specificity and interspecies reactivity to antilymphoid globulin (Putnam et al.), 951
Intrasplenic injection of norepinephrine, vasopressor response to, in dogs with and without portal systemic venous communications (Aldrete et al.), 461
Intravascular thrombosis, retardation of, by sulfated surfaces (Wright, Luber, and Johnston), 744
Intussusception in two-year-old child, recurrent eosinophilic infiltrate (granuloma) of ileum causing (McGreevy et al.), 280
Irradiation (combined), intra-arterial chemotherapy, and surgery for treatment of sarcomas of extremities (Yonemoto, Byron, and Jacobs), 355
Ischemic areas of heart, technique for demonstration of, at operation (Zikria et al.), 608

J

Jaundice, anatomical diagnosis of, by percutaneous cholangiography and its influence on treatment (Thorbjarnarson), 347
obstructive, neoplastic, new methods of palliation of (Tulcinsky), 672
Jejunum, interposition of, in surgical reconstruction of diseased esophagus (Grimes), 325

K

Kidney, allotransplantation of, along with pancreas and duodenum in diabetic nephropathy (Kelly et al.), 827
horseshoe, and abdominal aneurysm, case report and collective review of (Minken and Rob), 719

L

Larynx, normal, preservation of, with excision of cancer of posterior pharyngeal wall, new surgical approach (Harrold), 498
Ligation, carotid artery, alleviation of experimental epilepsy by (Payan), 768
Liver, canine, effect of partial portacaval transposition on (Marchioro et al.), 723
carcinoma of, primary and secondary, partial hepatectomies and second-look procedures for, prolonged survivals after (Friesen, Hardin, and Kittle), 203
compliance of (Wood and Tait), 407
disease, investigation of, transumbilical portal hepatography as significant adjunct in (Piccone et al.), 333
Liver—Cont'd
homotransplants, auxiliary, canine, effects of portacaval shunt and portal flow occlusion on (Tretbar, Beven, and Hermann), 733
primary malignant tumors of, review of clinical and pathologic characteristics of 47 cases and discussion of current diagnostic techniques and surgical management (Moseley), 674
solitary abscess of, in newborn infant (Sharma and Kumar), 812
Lumbar arteries, control of, during abdominal aortic aneurysmectomy, simple technique for (Olander and Hadidian), 561
Lung and pleura, animadversions on (Robb), 331
right, canine, homotransplantation of (Nakagawa et al.), 576
Lymphatic dynamics, altered, following groin and axillary dissection, relationship to treatment policies for malignant melanoma (Ariel and Resnick), 210
-venous communications, surgical creation of, experimental approach (Calderon, Roberts, and Johnson), 122
Lymphocyte serum, anti–canine, heterologous, production and effect of (Pichlmayr, Brendel, and Zenker), 774

M

Malignant melanoma, treatment policies, relationship to altered lymphatic dynamics following groin and axillary dissection (Ariel and Resnick), 210
tumors of liver, primary, review of clinical and pathologic characteristics of 47 cases and discussion of current diagnostic techniques and surgical management of (Moseley), 674
Mammary artery, internal, retrograde implantation, posterior myocardial revascularization by (Urschel and Morales), 59
Melanoma, malignant, treatment policies, relationship to altered lymphatic dynamics following groin and axillary dissection (Ariel and Resnick), 210
Mitral regurgitation, severe, plication of giant left atrium at operation for (Johnson et al.), 118
stenosis with bronchial varices, causing massive hemorrhage (Nennhaus and Hunter), 556
valve, aortic valve, and pericardium, diffusion respiration and electrolyte composition of (Enerson, Clevenger, and Berman), 443
replacement, prosthetic, experimental investigations on function of papillary muscles after (Seidel and Gross), 802

Monitor, water seal, gastric sump drainage with (Hughes and Wootton), 192
Monitoring, central venous pressure, accurate (Rowe), 318
Muscles, papillary, function of, after prosthetic mitral valve replacement, experimental investigations on (Seidel and Gross), 802
Multiple polyposis in children, review and report of case in 6-year-old child who had associated nephrosis and asthma (Abramson), 288
Myocardial function, effect of epicardiectomy on (Agrawal et al.), 399
infarction, massive, surgery (Heimbecker et al.), 51
revascularization, posterior, by retrograde internal mammary artery implantation (Urschel and Morales), 59

N

Nasopharynx and soft palate, heterotopic brain in, report of two cases (Zarem et al.), 483
N-butyl cyanoacrylate tissue adhesive, with intestinal anastomosis (Matsumoto et al.), 567
Neonatal peritonitis (Birtch, Coran, and Gross), 305
Neoplastic jaundice, obstructive, new methods of palliation of (Tulcinsky), 672
Nephropathy, diabetic, allotransplantation of pancreas and duodenum along with kidney in (Kelly et al.), 827
Nephrosis and asthma associated with multiple polyposis, in 6-year-old child, review and report of case (Abramson), 288
Nerve, sinus, carotid, electrical stimulation of, effects of, in reversal of experimentally induced hypertension (Neistadt and Schwartz), 923
Neurofibrous tissue constriction of celiac ganglion, symptomatic celiac artery stenosis due to (Snyder, Mahoney, and Rob), 372
Nitrate, silver, aqueous, (0.5 percent), patients treated with, for Pseudomonas burn sepsis (Tessler and Polk), 705
Nitrogen mustard hyperamylasemia and intestinal lesions (Hiatt et al.), 596
Norepinephrine, Dibenzyline, dextran, whole blood, and balanced saline solutions, comparison of effects of, in treatment of experimental shock (Rush), 938
and head-down tilt, effect on flow in internal carotid artery of primates (Tindall et al.), 248
intrasplenic injection of, vasopressor response to, in dogs with and without portal systemic venous communications (Aldrete et al.), 461

O

Obstruction, distal, massive gangrene of colon due to (Ambruoso and Feraru), 228
Occlusion(s), femoral-popliteal, chronic, venous patch graft reconstruction of (Edwards), 820
portal flow, and portacaval shunt, effects of, on canine auxiliary liver homotransplants (Tretbar, Beven, and Hermann), 733
Occlusive disease, femoropopliteal, saphenous vein bypass grafts for, reappraisal (Darling, Linton, and Razzuk), 31
Omphalocele, combined treatment of (Slim), 314
Organ(s), internal, artificial, as related to bioelectric properties of vascular system (Sharp), 763
preservation, whole, freezing studies of (Halasz et al.), 417
Oxygen consumption, renal, and blood flow, comparison of, with cooling and rewarming (Minor, Shumacker, and Wideman), 256
Oxygenator, bubble, disposable, evaluation of improved model (Ferguson, Burbank, and Burford), 260

P

Pacemaker electrodes, anchoring of, simplified method (Lui), 380
Palate, soft, and nasopharynx, heterotopic brain in, report of two cases (Zarem et al.), 483
Palliation of neoplastic obstructive jaundice, new methods of (Tulcinsky), 672
Pancreas and duodenum, allotransplantation of, along with kidney in diabetic nephropathy (Kelly et al.), 827
Pancreatic pseudocysts, delayed versus immediate treatment (Cerilli and Faris), 541
secretory response to topical anesthetic block of small bowel (Slayback et al.), 591
Papillary muscles, function of, after prosthetic mitral valve replacement, experimental investigations on (Seidel and Gross), 802
Pathogenesis of intestinal lesion of deep hypothermia and proposed relationship to that of irreversible shock, including note on mechanism for normal turnover of intestinal epithelium (Black-Schaffer et al.), 904
peritonitis, effect of *Escherichia coli* and adjuvant substances on peritoneal absorption (Sleeman et al.), 393
and hemoglobin on peritoneal absorption (Filler and Sleeman), 385
Percutaneous cholangiography, in anatomical diagnosis of jaundice, and its influence on treatment (Thorbjarnarson), 347

Perforation, gastric, postsplenectomy (Bryk and Petigrow), 239
Perfusion, cerebral, total, applicability of technique to several species of experimental animals (Moss), 265
Pericardium, mitral valves, and aortic valves, diffusion respiration and electrolyte composition of (Enerson, Clevenger, and Berman), 443
Peritoneal absorption, effect of *Escherichia coli* and adjuvant substances on, in pathogenesis of peritonitis (Sleeman et al.), 393
and hemoglobin on, in pathogenesis of peritonitis (Filler and Sleeman), 385
Peritonitis, neonatal (Birtch, Coran, and Gross), 305
pathogenesis of, effect of *Escherichia coli* and adjuvant substances on peritoneal absorption (Sleeman et al.), 393
and hemoglobin on peritoneal absorption (Filler and Sleeman), 385
Pharmacodynamic of intrahepatic circulation in shock (Mahfouz and Aida), 755
Pharyngeal wall, posterior, excision of cancer of, with preservation of normal larynx, new surgical approach (Harrold), 498
Plasma volume response to hemorrhage, physiological role of cortisol in (Marks, King, and McCarthy), 422
Pleura and lung, animadversions on (Grimes), 325
Plication of giant left atrium at operation for severe mitral regurgitation (Johnson et al.), 118
Pneumothorax, spontaneous, recurrent, treatment of, with cyanoacrylate tissue adhesives (Matsumoto et al.), 573
Poliomyelitis and cerebral palsy, similarities in response to sympathectomy in release of vasoconstriction (Holmes, Gilfillan, and Cuthbertson), 129
Polyposis, multiple, in children, review and report of case in 6-year-old child who had associated nephrosis and asthma (Abramson), 288
Popliteal artery segments, isolated, success of bypass vein grafts in patients with (Mannick et al.), 17
-femoral occlusions, chronic, venous patch graft reconstruction of (Edwards), 820
Portacaval shunts and portal flow occlusion, effects of, on canine auxiliary liver homotransplants (Tretbar, Beven, and Herman), 733
effects of, on flow and composition of bile (Neistadt, Lima, and Schwartz), 427
transposition, partial, effect of, on canine liver (Marchioro et al.), 723
Portal flow occlusion and portacaval shunt, effects of, on canine auxiliary liver homotransplants (Tretbar, Beven, and Hermann), 733
hepatography, transumbilical, significant adjunct in investigations of liver disease (Piccone et al.), 333
hypertension and hepatic cirrhosis, portarenal shunt for (Simeone and Hopkins), 153
systemic venous communications, dogs with and without vasopressor response to intrasplenic injection of norepinephrine in (Aldrete et al.), 461
vein, aneurysm of, report of two cases, one resulting in thrombosis and spontaneous rupture (Thomas), 550
Portarenal shunt for hepatic cirrhosis and portal hypertension (Simeone and Hopkins), 153
Portography, arterial, indications and techniques (Bron and Fisher), 137
Postsplenectomy gastric perforation (Bryk and Petigrow), 239
Potassium, enteric-coated, ingestion, small-bowel ulceration due to, in two-year-old child (Hartman, Greaney, and Rottapel), 814
Preservation, whole organ, freezing studies of (Halasz et al.), 417
Primates, internal carotid artery of, flow in, effects of head-down tilt and norepinephrine on (Tindall et al.), 248
Prosthesis(es), aluminum, as blood vessel replacements (McCann, Saez, and McHugh), 588
ball-valve, replacement of aortic valve with, early hemodynamic state after (Rastelli and Kirklin), 873
gastrostomy with (Redo and Barnes), 320
Prosthetic mitral valve replacement, experimental investigations on function of papillary muscles after (Seidel and Gross), 802
Pseudocysts, pancreatic, delayed versus immediate treatment (Cerilli and Faris), 541
Pseudomonas burn sepsis in patients treated with aqueous silver nitrate (0.5 percent) (Tessler and Polk), 705
Pulmonary edema, iatrogenic, in surgical patients (Adriani et al.), 183
failure, reversible, prolonged cross-circulation for (Bryant et al.), 932
venous air embolism hemodynamic reappraisal of (Chiu et al.), 816
Pumps, roller, in hemolysis, factors influencing (Bernstein and Gleason), 432
Pyloroplasty-vagotomy for duodenal ulcer, critical appraisal of early results (Herrington), 698

Pylorus-preserving gastrectomy as improved operation for gastric ulcer (Maki et al.), 838

R

Reconstruction, colonic, of esophagus, in infants and children (Gross and Firestone), 955
graft, venous patch, of chronic femoral-popliteal occlusions (Edwards), 820
surgical, of diseased esophagus, by interposition of ileocolon and colon (Grimes), 487
of jejunum (Grimes), 325
Regeneration, vagus, in dog (Jefferson et al.), 808
Regurgitation, mitral, severe, plication of giant left atrium at operation for (Johnson et al.), 118
Renal oxygen consumption and blood flow, comparison of, with cooling and rewarming (Minor, Shumacker, and Wideman), 256
transplantation in rat, improved technique (Lee), 771
Replacement of aortic valve with ball-valve prosthesis, early hemodynamic state after (Rastelli and Kirklin), 873
extracellular fluid, sequential buffering, and hemodilution, effects of, in hemorrhagic shock (Tragus, Parkins, and Baue), 795
mitral valve, prosthetic, experimental investigations on function of papillary muscles after (Seidel and Gross), 802
Resection, obstructive, for ileus of large intestine caused by tumor (Petrov), 694
segmental, of tracheobronchial tree (Quattlebaum and Humphrey), 364
Revascularization, posterior myocardial, by retrograde internal mammary artery implantation (Urschel and Morales), 59
Rupture, spontaneous, and thrombosis, resulting in one of two cases with aneurysm of portal vein (Thomas), 550

S

Saline solutions, balanced, norepinephrine, Dibenzyline, dextran, and whole blood, comparison of effects of, in treatment of experimental shock (Rush), 938
Saphenous vein bypass grafts, for femoropopliteal occlusive disease, reappraisal (Darling, Linton, and Razzuk), 31
Sarcomas of extremities, treatment by combined irradiation, intra-arterial chemotherapy, and surgery (Yonemoto, Byron, and Jacobs), 355
Scar formation, decreased, with topical corticosteroid treatment (Berliner et al.), 619
Second-look procedures and partial hepatectomies, for primary and secondary carcinoma of liver, prolonged survivals after (Friesen, Hardin, and Kittle), 203
Secretory response, pancreatic, to topical anesthetic block of small bowel (Slayback et al.), 591
Sepsis, burn, Pseudomonas, in patients treated with aqueous silver nitrate (0.5 percent) (Tessler and Polk), 705
Serotonin, bradykinin, and histamine, relationship to carcinoid syndrome (Gardner et al.), 846
Serum cholesterol, effects of surgical stress on (Symbas, Abbott, and Ende), 221
lymphocyte, anti-canine, heterologous, production and effect of (Pichlmayr, Brendel, and Zenker), 774
Sewing ring healing of cardiac valve prostheses (Berger et al.), 102
Shock, experimental, treatment of, with comparison of effects of norepinephrine, Dibenzyline, dextran, whole blood, and balanced saline solutions (Rush), 938
hemorrhagic, effects of sequential buffering, extracellular fluid replacement, and hemodilution in (Tragus, Parkins, and Baue), 795
intrahepatic circulation in, pharmacodynamic of (Mahfouz and Aida), 755
irreversible, intestinal lesion of, and proposed relationship to that of deep hypothermia, pathogenesis of, including note on mechanism for normal turnover of intestinal epithelium (Black-Schaffer et al.), 904
Shunt(s), portacaval, effects of, on flow and composition of bile (Neistadt, Lima, and Schwartz), 427
and portal flow occlusion, effects of, on canine auxiliary homotransplants (Tretbar, Beven, and Hermann), 733
portarenal, for hepatic cirrhosis and portal hypertension (Simeone and Hopkins), 153
Silver nitrate, aqueous, (0.5 percent), patients treated with, for Pseudomonas burn sepsis (Tessler and Polk), 705
Sinus nerve, carotid, electrical stimulation of, effects of in reversal of experimentally induced hypertension (Neistadt and Schwartz), 923
Small bowel, topical anesthetic block of, pancreatic secretory response to (Slayback et al.), 591
ulceration due to enteric-coated potassium ingestion in two-year-old child (Hartman, Greaney, and Rottapel), 814

Splenectomy and gastroesophageal decongestion in treatment of esophageal varices in bilharzial cirrhosis, further studies (Hassab), 169
Stab wounds, abdomen, selective surgical intervention for (Wilder, Habermann, and Schachner), 231
Stenosis, mitral, with bronchial varices, causing massive hemorrhage (Nennhaus and Hunter), 556
symptomatic, of celiac artery, due to constriction of neurofibrous tissue of celiac ganglion (Snyder, Mahoney, and Rob), 372
Strangulation, fluid, toxic, absorption of, role of various abdominal surfaces in (Johnston, Barnett, and Hilbun), 270
Stress, infant's response to, assessment of (Talbert et al.), 626
surgical, effects on serum cholesterol (Symbas, Abbott, and Ende), 221
ulcers, in survey of experience in large general hospital (Grosz and Wu), 853
Submucosa, intestinal, as patch graft, further application of (Matsumoto et al.), 584
Sulfated surfaces, retardation of intravascular thrombosis by (Wright, Luber, and Johnston), 744
Sump drainage, gastric, with water seal monitor (Hughes and Wootton), 192
Surgical stress, effects on serum cholesterol (Symbas, Abbott, and Ende), 221
Sutures, metal, various, use of, to increase tensile strength of wounds (Wu, Dennis, and Sawyer), 242
Sympathectomy in release of vasoconstriction (Holmes, Gilfillan, and Cuthbertson), 129
Syndrome, carcinoid, studies of and relationship to serotonin, bradykinin, and histamine (Gardner et al.), 846
Hurler-Hunter, inguinal hernia in (Coran and Eraklis), 302

T

Thermal and tourniquet trauma, antibody production in mice after (Markley, Smallman, and Evans), 896
Thromboendarterectomy, eversion (Harrison, Jordan, and Perez), 26
Thrombosis, cardiac and vascular implants in relation to, comparative study (Hufnagel et al.), 11
intravascular, retardation of, by sulfated surfaces (Wright, Luber, and Johnston), 744
and spontaneous rupture, resulting in one of two cases with aneurysm of the portal vein (Thomas), 550
Tilt, head-down, and norepinephrine, effect on flow in internal carotid artery of primates (Tindall et al.), 248
Tissue adhesives, cyanoacrylate, n-butyl, with intestinal anastomosis (Matsumoto et al.), 567
alkyl 2-cyanoacrylate, toxicity of, in brain and blood vessels (Lehman and Hayes), 915
cyanoacrylate, in treatment of recurrent spontaneous pneumothorax (Matsumoto et al.), 573
loss following single and repeated frostbite injuries, evaluation of (Minor and Shumacker), 562
Tourniquet and thermal trauma, antibody production in mice after (Markley, Smallman, and Evans), 896
Toxic strangulation fluid, absorption of, role of various abdominal surfaces in (Johnston, Barnett, and Hilbun), 270
Toxicity of alkyl 2-cyanoacrylate tissue adhesives, in brain and blood vessels (Lehman and Hayes), 915
Tracheobronchial tree, segmental resection of (Quattlebaum and Humphrey), 364
Transaminase activity, in biochemical changes associated with experimental endotoxemia, evaluation of (Sleeman, Jennings, and Hardaway), 945
Transplantation, renal, in rat, improved technique (Lee), 771
Transposition, portacaval, partial, effect of, on canine liver (Marchioro et al.), 723
Transumbilical hepatography, portal, significant adjunct in investigation of liver disease (Piccone et al.), 333
Trauma, thermal and tourniquet, antibody production in mice after (Markley, Smallman, and Evans), 896
Traumatic aneurysms of aorta, natural history of (Bennett and Cherry), 516
Tumors, benign, of gallbladder (Arbab and Brasfield), 535
of heart, surgical management (Gerbode et al.), 94
of ileus of large intestine, obstructive resection for (Petrov), 694
of liver, malignant, primary, review of clinical and pathologic characteristics of 47 cases and discussion of current diagnostic techniques and surgical management (Moseley), 674

U

Ulcer(s), duodenal, chronic bleeding of, in childhood, managed by hemigastrectomy and vagotomy (Lucas and Benson), 478

Ulcer(s), duodenal—Cont'd
surgery of, role of vagotomy in (Bryant, Klein, and Griffen), 864
vagotomy-pyloroplasty for, critical appraisal of early results (Herrington), 698
gastric and antral border (Ruding), 495
pylorus-preserving gastrectomy as improved operation for (Maki et al.), 838
stress, in survey of experience in large general hospital (Grosz and Wu), 853
Ulceration, small-bowel, due to enteric-coated potassium ingestion in two-year-old child (Hartman, Greaney, and Rottapel), 814

V

Vagotomy and hemigastrectomy, in managing chronic bleeding ulcer in childhood (Lucas and Benson), 478
-pyloroplasty for duodenal ulcer, critical appraisal of early results (Herrington), 698
role of, in duodenal ulcer surgery (Bryant, Klein, and Griffen), 864
Vagus regeneration in dog (Jefferson et al.), 808
Valve(s), aortic and mitral, and pericardium, diffusion respiration and electrolyte composition of (Enerson, Clevenger, and Berman), 443
replacement of with ball-valve prosthesis, early hemodynamic state after (Rastelli and Kirklin), 873
prostheses, cardiac, sewing ring healing of (Berger et al.), 102
replacement, mitral, prosthetic, experimental investigations on function of papillary muscles after (Seidel and Gross), 802
Vascular anastomoses at surgery, evaluation of, and detection of level of arterial obstruction (Border), 713
and cardiac implants, comparative study, in relation to thrombosis (Hufnagel et al.), 11
injury, cervicomediastinal (Imamoglu, Read, and Huebl), 274
system, bioelectric properties of, as related to artificial internal organs (Sharp), 763
Vasoconstriction release, sympathectomy in (Holmes, Gilfillan, and Cuthbertson), 129
Vasopressor response to intrasplenic injection of norepinephrine in dogs with and without portal systemic venous communications (Aldrete et al.), 461
Vein(s) grafts, bypass, success of, in patients with isolated popliteal artery segments (Mannick et al.), 17
Vein(s) grafts—Cont'd
saphenous, bypass for femoropopliteal occlusive disease, reappraisal (Darling, Linton, and Razzuk), 31
homograft, antigenicity of (Schwartz et al.), 471
portal, aneurysm of, report of two cases, one resulting in thrombosis and spontaneous rupture (Thomas), 550
Vena cava, inferior, clip, application of (Flege), 823
Vena caval homotransplant with one-stage hepatectomy (McBride and Healey), 455
Venous communications, portal systemic, dogs with and without, vasopressor response to intrasplenic injection of norepinephrine in (Aldrete et al.), 461
hemostasis, experimental study of (Harris et al.), 891
-lymphatic communications, surgical creation of, experimental approach (Calderon, Roberts, and Johnson), 122
patch graft reconstruction of chronic femoral-popliteal occlusions (Edwards), 820
pressure, central, accurate monitoring (Rowe), 318
pulmonary, air embolism, hemodynamic reappraisal of (Chiu et al.), 816
Ventricular fibrillation threshold in respiratory acidosis and alkalosis (Dong, Stinson, and Shumway), 602
Vessel(s), blood and brain, toxicity of alkyl 2-cyanoacrylate tissue adhesives in (Lehman and Hayes), 915
large, in dogs, freezing injury to (Gage, Fazekas, and Riley), 748
replacements, by aluminum prostheses (McCann, Saez, and McHugh), 588
Vietnamese civilian war casualties, simple abdominal wall closure in (Heimburger and Campbell), 858
Viral warts, for colon cancer inhibition (Young), 382
Viscerocutaneous fistulas, management of (Goldsmith), 361

W

War casualties, of Vietnamese civilians, simple abdominal wall closure in (Heimburger and Campbell), 858
Warts, viral, for colon cancer inhibition (Young), 382
Wounds, stab, abdomen, selective surgical intervention for (Wilder, Habermann, and Schachner), 231
tensile strength of, use of various metal sutures to increase (Wu, Dennis, and Sawyer), 242

SUBJECT INDEX*

A

Abdominal aortic aneurysms, physiological and technical factors in surgical treatment (Campbell), 789

Absorption, iron, after gastrectomy: experimental study in dog (Keith et al.), 356

Academic surgeon (Waldhausen), 979

surgery, development of, in Chicago (Kittle), 1

Accomplishments and philosophy, Hunter—Billroth—Wangensteen (Absolon), 567

Acid-base status of surgical neonate on admission to hospital (Srouji), 958

Actinomycosis, intramural gastric (Urdaneta et al.), 431

Activator, plasminogen, in vivo turnover rate of, after cardiopulmonary bypass; problems in hemostasis during open-heart surgery (Gans et al.), 292

Activity, parietal cell, correlation of, with ultrastructural alterations (Adkins, Ende, and Gobbel), 1059

transaminase, and serum xanthine oxidase, effect of experimental ligation of superior mesenteric artery (Dagher, Panossian, and Saab), 1044

Acute bleeding from peptic ulcers, surgical management (Feltis and Hamit), 988

ADH, antidiuretic hormone, control, mechanisms, of importance to surgical patient (Moran and Zimmerman), 639

Adrenogenital syndrome, in child who recently recovered from varicella, associated with occurrence of Pseudomonas pyosalpinx (Fisher), 379

Advances, recent, in cardiac replacement (Shumway, Angell, and Wuerflein), 794

Aerosol, talc powder, treatment, recurrent malignant pleural effusions and (Adler and Rappole), 1000

Alcoholic pancreatitis, experimental, in dog, studies (Cueto, Tajen, and Zimmermann), 159

Alkalosis in septic shock (MacLean et al.), 655

Allogeneic organ transplantation rejection, participation of humoral antibody in (Najarian and Perper), 213

Allogenic canine liver transplantation with cadaver donors (Fonkalsrud et al.), 333

Allografts, skin, multiple, and hyperbaric oxygen, influence, on healing of skin wounds (Shulman and Krohn), 1051

Allografts—Cont'd

prolongation of, with anti-lymphocyte serum in rats (Grogan and Hardy), 352

Alpha adrenergic blockade, unrecognized aspects (Harrison, Bartlett, and Seaton), 97

Alterations, chronic, in gastrointestinal blood flow induced by vagotomy (Delaney), 155

hemodynamic, associated with epidural anesthesia (McLean et al.), 79

ultrastructural, correlation of parietal cell activity with (Adkins, Ende, and Gobbel), 1059

vascular, anatomical and functional, associated with electrically produced thrombosis, studies (Porter, Acinapura, and Silver), 920

Anastomosis(es) between thoracic duct and esophagus with microsurgical technique (Oh et al.), 340

d-shaped esophageal, method of total gastrectomy followed by (Daido et al.), 865

end-to-end, and resection, in management of atresia and stenosis of small bowel (Louw), 940

end-side, pressure-flow relations (Schultz, Hokanson, and Strandness), 319

portacaval, S-adenosylmethionine following (Baldessarini and Fischer), 311

Anatomical and functional vascular alterations associated with electrically produced thrombosis, studies (Porter, Acinapura, and Silver), 920

Anesthesia, epidural, hemodynamic alterations associated with (McLean et al.), 79

Aneurysms, abdominal aortic, physiological and technical factors in surgical treatment (Campbell), 789

Angiogram, hepatic artery, accurate preoperative diagnosis by, for traumatic hemobilia (Gundersen and Green), 862

Angiotensin II, pressor response to portal infusion (Abrams), 103

Anotransabdominal approach to polyps of colon (Benjamin et al.), 411

Antibiotic(s) solution, clinical evaluation of peritoneal irrigation with (Noon et al.), 73

use of, in prevention of vascular graft infections (Lindenauer et al.), 487

Antibody, humoral, participation in allogeneic organ transplantation rejection (Najarian and Perper), 213

Antidiuretic hormone (ADH) control, mechanisms, of importance to surgical patient (Moran and Zimmermann), 639

*July, pp. 1-238; August, pp. 239-410; September, pp. 411-564; October, pp. 565-832; November, pp. 833-982; December, pp. 983-1156.

Antigens, tumor, and immune response (McKhann and Harder), 118
Anti-lymphocyte serum in rats, prolongation of skin allografts with (Grogan and Hardy), 352
Aortic aneurysms, abdominal, physiological and technical factors in surgical treatment (Campbell), 789
valve homograft, fresh, mitral valve replacement with: experimental results and clinical application (Angell, Wuerflein, and Shumway), 807
procurement and preparation (Sands et al.), 839
Appendicitis, virus infection as trigger of: experimental investigation of Coxsackie B_5 virus infection in monkey intestine (Tobe et al.), 927
Appraisal, surgical, of diverticulitis coli (Asch and Markowitz), 239
Arterial bypass grafts, tunneler for (Robb and DeWeese), 393
pCO_2, effect, on gastric mucosal blood flow measured by clearance of Kr^{85} (Bell and Battersby), 468
Arteriovenous differences, correlation of, with composition of gastric juice (McQuarrie et al.), 475
fistulae, renal: review of literature and report of successfully treated case (Papadopoulous and Manoli), 285
of vertebral artery in neck, further experience with (Chou et al.), 779
Artery(ies), carotid, endarterectomy, continuous electroencephalographic monitoring during (Harris et al.), 441
hepatic, angiogram, accurate preoperative diagnosis by, for traumatic hemobilia (Gundersen and Green), 862
iliac and/or common, and veins, excision, at periphery of pelvis in patients receiving pelvic exenteration, 1947 to 1964 (Barber and Brunschwig), 426
length of left main coronary (Green, Bernstein, and Reppert), 1021
pulmonary, hemodynamics during occlusion of (Ebert et al.), 18
superior mesenteric, effect of experimental ligation, on serum xanthine oxidase and transaminase activity (Dagher, Panossian, and Saab), 1044
vertebral, in neck, further experience with arteriovenous fistulas of (Chou et al.), 779
Ascites, intractable, treatment by reinfusion of unmodified autogenous ascitic fluid (Pearlman and Duremdes), 248
Atelectasis, chronic and recurrent, in children (Tarnay et al.), 520
Atresia and stenosis of small bowel, resection and end-to-end anastomosis in management (Louw), 940
Augmentation, postsystolic myocardial, effect on myocardial perfusion following acute coronary occlusion (Wyant et al.), 499
Autografts, partial hepatic, completely revascularized, role of portal blood in regeneration and function (Price, Voorhees, and Britton), 195
Autologous blood transfusion in thoracic and cardiovascular surgery (Cuello et al.), 814
Autotransplantation, heterotopic, of canine pancreas (Mitchell and Davidson), 454

B

Ball and lens heart valve prostheses, comparison (Cross, Akao, and Jones), 797
Beds, teaching, forty-one thousand unused (Malette and Bradley), 407
Behavior of intramyocardial foreign bodies: experimental study (Holdefer et al.), 1070
Benign, and malignant, esophageal tumors, our experience in surgical treatment (Petrovsky and Vantsian), 833
Bilateral diaphragmatic eventration: demonstration by pneumoperitoneography (Firestone and Taybi), 954
Bile duct, common, primary closure of, choledochotomy, intraoperative cholangiomanometry, technique and indications of, some current problems of biliary tract surgery (Krauss and Kern), 983
Biliary decompression, extrahepatic, in traumatized canine livers (Lane, Johnson, and Walker), 1039
stricture (Aust et al.), 601
tract surgery, some current problems of: indications and technique of choledochotomy, intraoperative cholangiomanometry, primary closure of common bile duct (Krauss and Kern), 983
Billroth—Hunter—Wangensteen, their philosophy and accomplishments (Absolon), 567
Biologic and mechanical considerations in erythrocyte damage (Indeglia et al.), 47
Bladder, previously overdistended, simple technique for evaluating function (Belzer), 386
Bleeding, acute, from peptic ulcers, surgical management of (Feltis and Hamit), 988
volume replacement following, compared to replacement after hemorrhagic shock: effectiveness of dextran and buffered saline (Rush and Morehouse), 88
gastrointestinal, in neonates: study of 94 cases (Sherman and Clatworthy), 614
Blind rectal pouch in Duhamel operation for Hirschsprung's disease, method for elimination (Martin and Caudill), 951

Blockade, alpha adrenergic, unrecognized aspects (Harrison, Bartlett, and Seaton), 97
Blood flow during venous occlusion, augmentation of (Bergan et al.), 366
gastric mucosal, measured by clearance of Kr^{85}, effect of arterial pCO_2 (Bell and Battersby), 468
gastrointestinal, chronic alterations in, induced by vagotomy (Delaney), 155
hepatic, measured by krypton-85 clearance technique (Birtch, Casey, and Zakheim), 174
pancreatic secretion, and sphincteric mechanisms, central nervous system influences on, and their role in course of pancreatitis (Gilsdorf et al.), 581
loss, increased, associated with administration of certain plasma expanders: dextran 75, dextran 40, and hydroxyethyl starch (Karlson et al.), 670
portal, role in regeneration and function of completely revascularized partial hepatic autografts (Price, Voorhees, and Britton), 195
transfusion, autologous, in thoracic and cardiovascular surgery (Cuello et al.), 814
vessels, major, excision of, at periphery of pelvis in patients receiving pelvic exenteration (Barber and Brunschwig), 426
volume and renal function, changes in, following ligation of inferior vena cava (Gazzaniga et al.), 417
Bodies, intramyocardial foreign, behavior of: experimental study (Holdefer et al.), 1070
Bowel, small, injury as factor in dumping syndrome (Butt et al.), 572
resection and end-to-end anastomosis in management of atresia and stenosis of (Louw), 940
Breast cancer, human, studies on possible viral etiology of (Feller, Chopra, and Bepko), 750
Bypass, cardiopulmonary, diluents for priming in (Blakemore), 981
in vivo turnover rate of plasminogen activator after; problems in hemostasis during open-heart surgery (Gans et al.), 292
graft(s), arterial, tunneler for (Rob and DeWeese), 393
femoral, new tunneler and graft introducer for (Colt), 978
segment, colon, technique for increasing the length of (Leininger, Lal, and Neville), 888

C

Caloric significance of postburn surface water loss (Jelenko and Buxton), 994
Cancer(s), human breast, studies on possible viral etiology of (Feller, Chopra, and Bepko), 750
skin, about head and face, electrocoagulation in treatment (Whelan), 1017
Carcinoma, superficial, gastrectomy of, use of intraoperative gastroviewer (Inokuchi and Furusawa), 255
Cardiac replacement, recent advances (Shumway, Angell, and Wuerflein), 794
Cardiopulmonary bypass, diluents for priming in (Blakemore), 981
in vivo turnover rate of plasminogen activator after; problems in hemostasis during open-heart surgery (Gans et al.), 292
Cardiovascular and thoracic surgery, autologous blood transfusion in (Cuello et al.), 814
Carotid artery endarterectomy, continuous electroencephalographic monitoring during (Harris et al.), 441
body tumors, surgical management (Grage and Cueto), 742
Cartilaginous tumors, giant, of pelvic and shoulder girdles, management (Pack), 405
Catheter, illuminated gastric, preliminary report of simplified method employing, in transilluminated distention gastrostomy (Edlich et al.), 448
Cell activity, parietal, correlation of, with ultrastructural alterations (Adkins, Ende, and Gobbel), 1059
regional lymph node trapping, effect of systemic chemotherapeutic agents upon (Howe and Stahl), 516
Cellular and ultrastructural changes in endotoxemia: light and electron microscopic study (DePalma et al.), 505
Center, clinical, role, in care of acutely ill and injured patients (State), 624
Central nervous system influences on pancreatic secretion, sphincteric mechanisms, and blood flow and their role in course of pancreatitis (Gilsdorf et al.), 581
Change(s), cellular and ultrastructural, in endotoxemia: light and electron microscopic study (DePalma et al.), 505
social, and surgical education (Russell), 561
Characterization and partial purification of sialogastrone (Menguy, Masters, and Manzi), 891
Chemotherapeutic agents, systemic, effect of upon regional lymph node cell trapping (Howe and Stahl), 516
Chest wall, malignant sarcoma with bilateral pulmonary metastases: fifteen-year survival after multiple radical local excision and resection of bilateral pulmonary metastases and successful treatment of scoliosis secondary to tumor surgery (Winter and Tongen), 374

Childhood deaths due to injury (Perry and Venters), 620
Children, chronic and recurrent atelectasis in (Tarnay et al.), 520
foramen of Morgagni hernias in (Baran et al.), 1076
and infants, pouch technique in surgical correction of cryptorchidism in (Benson and Lotfi), 967
Chinese predecessor (Robb), 409
Cholangiomanometry, intraoperative, primary closure of common bile duct, technique and indications of choledochotomy and, some current problems of biliary tract surgery (Krauss and Kern), 983
Choledochoduodenal junction, normal luminal size of, as determined by probe at choledochostomy (Braasch and McCann), 258
Choledochostomy, normal luminal size of choledochoduodenal junction as determined by probe at (Braasch and McCann), 258
Choledochotomy, intraoperative cholangiomanometry, primary closure of common bile duct, technique and indications of, some current problems of biliary tract surgery (Krauss and Kern), 983
Circulation, pulmonary, effects of gaseous and particulate emboli on (Cook, Ferrell, and Webb), 910
Clamp, rubber-shod, substitute for (Gustafson), 266
Clearance technique, krypton-85, hepatic blood flow measured by (Birtch, Casey, and Zakheim), 174
Cleveland operations, new historical information on (Morreels), 542
Clinical center, role of, in care of acutely ill and injured patients (State), 624
observations, preliminary, and experimental study, on electromyography to determine viability of injured small bowel segments (Schamaun), 899
Clip, self-locking vena cava (Ahlquist and Durham), 974
Clostridial infections, treatment of, with hyperbaric oxygen (Hitchcock, Haglin, and Arnar), 759
Closure, method, of defects in ischiorectal fossa (Ger), 260
primary, of common bile duct, choledochotomy, intraoperative cholangiomanometry, technique and indications of, some current problems of biliary tract surgery (Krauss and Kern), 983
Clotting protein molecules, selectivity of phagocytosis for, derived from two clotting proteins of plasma. Preservation of vascular patency as function of reticuloendothelial clearance. II (Gans et al.), 698
Colon bypass segment, technique for increasing length (Leininger, Lal, and Neville), 888
polyps of, anotransabdominal approach to (Benjamin et al.), 411
Coma, experimental hepatic, effect of exchange transfusion on metabolism and survival (Turcotte, Mattson, and Child), 189
Common bile duct, primary closure of, choledochotomy, intraoperative cholangiomanometry, technique and indications of, some current problems of biliary tract surgery (Krauss and Kern), 983
Comparisons of plasma volumes before and after operation, validity (Knott and Kirklin), 843
Compression and cerebral edema, experimentally produced, protective effect of hyperbaric oxygenation in (Sukoff, Hollin, and Jacobson), 40
Computer-assisted instruction in undergraduate surgical education (Fonkalsrud, Hammidi, and Maloney), 141
techniques in care of surgical patients (Lewis), 630
Congenital diaphragmatic hernia, surgically produced, hypoplastic lungs in fetal lambs with (deLorimier, Tierney, and Parker), 12
hepatic fibrosis as cause of portal hypertension: report of two cases (Hermann and Hawk), 1095
pyloric stenosis: roentgen findings 52 years after gastroenterostomy (Dickinson and Brant), 1092
Contaminated wounds, instructive chapter in management of, military surgeons, old and new (Wangensteen and Wangensteen), 1102
Coronary artery, left main, length of (Green, Bernstein, and Reppert), 1021
occlusion, acute, effect of postsystolic myocardial augmentation on myocardial perfusion following (Wyant et al.), 499
Correction, surgical, of rectal procidentia (Devadhar), 847
Correlation of parietal cell activity with ultrastructural alterations (Adkins, Ende, and Gobbel), 1059
Coxsackie B_5 virus infection in monkey intestine, experimental investigation of, virus infection as trigger of appendicitis (Tobe et al.), 927
Cryptorchid testis, histology (Cohn), 536
Cryptorchidism in infants and children, pouch technique in surgical correction of (Benson and Lotfi), 967
Culture of human leukemia: simplified perfusion system for growth of colonies of human neoplasms (Folkman, Winsey, and Moghul), 110

Cushion, endocardial, repair of defects (Shippey et al.), 274

Cystic duct, heterotopic gastric mucosa in wall of: report of case (Whittaker et al.), 382

Cysts, giant pulmonary emphysematous, excision of: report of 20 cases without deaths (Fain et al.), 552

D

Decompression, extrahepatic biliary, in traumatized canine livers (Lane, Johnson, and Walker), 1039

of portal hypertension, mesenterorenal shunt for (Mozes, Tzur, and Bogokowsky), 884

Defect(s), endocardial cushion, repair of (Shippey et al.), 274

intracellular, produced by renal ischemia (Fraley and Malt), 221

in ischiorectal fossa, method for closure of (Ger), 260

Development of academic surgery in Chicago (Kittle), 1

Dextran and buffered saline, effectiveness of, in volume replacement following acute bleeding compared to replacement after hemorrhagic shock (Rush and Morehouse), 88

40, dextran 75, and hydroxyethyl starch, plasma expanders, increased blood loss associated with administration of (Karlson et al.), 670

75, dextran 40, and hydroxyethyl starch, certain plasma expanders, increased blood loss associated with administration of (Karlson et al.), 670

Diagnosis, accurate preoperative, by hepatic artery angiogram: traumatic hemobilia (Gundersen and Green), 862

Diaphragmatic eventration, bilateral: demonstration by pneumoperitoneography (Firestone and Taybi), 954

hernia, congenital, surgically produced, hypoplastic lungs in fetal lambs with (deLorimier, Tierney, and Parker), 12

in infancy: factors affecting mortality rate (Johnson, Deaner, and Koop), 1082

obstruction, duodenal, with pneumoperitoneum presenting in 13-year-old girl (Hase, Shaw, and Gould), 530

Diluents for priming in cardiopulmonary bypass (Blakemore), 981

Discomfort and performance, consideration of factors affecting surgeon's, heat and moisture trapping beneath surgical face masks (Enerson, Eisenfeld, and Kajikuri), 1007

Disease, thyroid, place of total thyroidectomy in management of (Perzik and Catz), 436

Distention gastrostomy, transilluminated: preliminary report of simplified method employing illuminated gastric catheter (Edlich et al.), 448

Diverticulitis coli, surgical appraisal (Asch and Markowitz), 239

D-shaped esophageal anastomosis, method of total gastrectomy followed by (Daido et al.), 865

Duct, common bile, primary closure, choledochotomy, intraoperative cholangiomanometry, technique and indications of, some current problems of biliary tract surgery (Krauss and Kern), 983

cystic, heterotopic gastric mucosa in wall: report of case (Whittaker et al.), 382

thoracic, and esophagus, anastomosis between, with microsurgical technique (Oh et al.), 340

Duhamel operation for Hirschprung's disease, method for elimination of blind rectal pouch in (Martin and Caudill), 951

Dumping syndrome, pathogenesis, role of nervous system (Silver, Rignault, and McGregor), 148

small bowel injury as factor (Butt et al.), 572

Duodenal diaphragmatic obstruction with pneumoperitoneum presenting in 13-year-old girl (Hase, Shaw, and Gould), 530

reflux and etiology of pancreatis (Johnson and Doppman), 462

E

Edema, cerebral, and compression, experimentally produced, protective effect of hyperbaric oxygenation (Sukoff, Hollin, and Jacobson), 40

EDTA response in rat, effect of parathyroid and thyroid surgery (Reeve), 493

Education, medical, new approach to (Anlyan and Sabiston), 134

surgical, and social change (Russell), 561

undergraduate surgical, computer-assisted instruction in (Fonkalsrud, Hammidi, and Maloney), 141

Effect(s) of experimental ligation of superior mesenteric artery on serum xanthine oxidase and transaminase activity (Dagher, Panossian, and Saab), 1044

gaseous and particulate emboli on pulmonary circulation (Cook, Ferrell, and Webb), 910

Effector mechanisms in renal graft rejection (Clark et al.), 770

Effusions, pleural, recurrent malignant, and talc powder aerosol treatment (Adler and Rappole), 1000

Electrically produced thrombosis, studies of anatomical and functional vascular alterations associated with (Porter, Acinapura, and Silver), 920
Electrocoagulation in treatment of skin cancers about head and face (Whelan), 1017
Electrodes, implanted, effect on tumor metastases in rat liver (Gardner, Sterling, and Brown), 361
Electroencephalographic monitoring, continuous, during carotid artery endarterectomy (Harris et al.), 441
Electromyography to determine viability of injured small bowel segments: experimental study with preliminary clinical observations (Schamaun), 899
Electron and light microscopic study of cellular and ultrastructural changes in endotoxemia (DePalma et al.), 505
Elimination of blind rectal pouch in Duhamel operation for Hirschsprung's disease, method (Martin and Caudill), 951
Emboli, gascous and particulate, effects, on pulmonary circulation (Cook, Ferrell, and Webb), 910
Embolism, fat: pulmonary disease (Peltier), 756
pulmonary, plication of vena cava for (Spencer), 388
Emphysematous cysts, giant pulmonary, excision of: report of 20 cases without deaths (Fain et al.), 552
Endarterectomy, carotid artery, continuous electroencephalographic monitoring during (Harris et al.), 441
gas, review of femoral-popliteal reconstruction utilizing (Kaplitt, Sobel, and Sawyer), 872
Endocardial cushion defects, repair (Shippey et al.), 274
Endotoxemia, cellular and ultrastructural changes: light and electron microscopic study (DePalma et al.), 505
End-to-end anastomosis, and resection, in management of atresia and stenosis of small bowel (Louw), 940
End-side anastomosis, pressure-flow relations (Schultz, Hokanson, and Strandness), 319
Energy balance following bilateral fracture of rat femur, influence of fever, protein metabolism, and thyroid function (Miksche and Caldwell), 66
Epidural anesthesia, hemodynamic alterations associated with (McLean et al.), 79
Erythrocyte damage, mechanical and biologic considerations (Indeglia et al.), 47
Esophageal anastomosis, d-shaped, method of total gastrectomy followed by (Daido et al.), 865
Esophageal—Cont'd
tumors, malignant and benign, our experience in surgical treatment (Petrovsky and Vantsian), 833
Esophagitis, reflux, and sliding hiatus hernia, treatment by Mark IV technique (Baue and Belsey), 396
Esophagus and thoracic duct, anastomosis between, with microsurgical technique (Oh et al.), 340
Etiology, possible viral, of human breast cancer, studies (Feller, Chopra, and Bepko), 750
Eventration, bilateral diaphragmatic: demonstration by pneumoperitoneography (Firestone and Taybi), 954
Exchange transfusion, effect on metabolism and survival in experimental hepatic coma (Turcotte, Mattson, and Child), 189
Exenteration, pelvic, excision of common and/or iliac arteries and veins, at periphery of pelvis in patients receiving, 1947 to 1964 (Barber and Brunschwig), 426
Expanders, certain plasma, increased blood loss associated with administration of: dextran 75, dextran 40, and hydroxyethyl starch (Karlson et al.), 670
Experimental alcoholic pancreatitis in dog, studies (Cueto, Tajen, and Zimmermann), 159
hepatic coma: effect of exchange transfusion on metabolism and survival (Turcotte, Mattson, and Child), 189
investigation of Coxsackie B_5 virus infection in monkey intestine, as trigger of appendicitis (Tobe et al.), 927
ligation of superior mesenteric artery, effect, on serum xanthine oxidase and transaminase activity (Dagher, Panossian, and Saab), 1044
re-evaluation, thyroid and parathyroid implantation (Fisher et al.), 1025
study, behavior of intramyocardial foreign bodies (Holdefer et al.), 1070
with preliminary clinical observations, on electromyography to determine viability of injured small bowel segments (Schamaun), 899
use of controlled portal and systemic hypotension for liver resection (Kaplan, Davies, and Heilbrunn), 325
Extrahepatic biliary decompression in traumatized canine livers (Lane, Johnson, and Walker), 1039

F

Face, and head, electrocoagulation in treatment of skin cancers about (Whelan), 1017
masks, surgical, heat and moisture trapping beneath: consideration of factors affecting surgeon's discomfort and performance (Enerson, Eisenfeld, and Kajikuri), 1007

Factors affecting mortality rate, diaphragmatic hernia in infancy (Johnson, Deaner, and Koop), 1082
surgeon's discomfort and performance, consideration of, heat and moisture trapping beneath surgical face masks (Enerson, Eisenfeld, and Kajikuri), 1007
Fat embolism: pulmonary disease (Peltier), 756
Femoral bypass grafts, new tunneler and graft introducer for (Colt), 978
-popliteal reconstruction utilizing gas endarterectomy, review (Kaplitt, Sobel, and Sawyer), 872
Fetus and fetal-maternal relationships, immunologic aspects (Jackson), 232
Fever, protein metabolism, and thyroid function, influence on energy balance following bilateral fracture of femur in rat (Miksche and Caldwell), 66
Fibrosis, hepatic, congenital, as cause of portal hypertension (Hermann and Hawk), 1095
Fistulas, arteriovenous, of vertebral artery in neck, further experience with (Chou et al.), 779
renal arteriovenous: review of literature and report of successfully treated case (Papadopoulos and Manoli), 285
Foramen of Morgagni hernias in children (Baran et al.), 1076
Foreign bodies, intramyocardial, behavior of: experimental study (Holdefer et al.), 1070
Fossa, ischiorectal, method for closure of defects in (Ger), 260
Fracture, bilateral, of rat femur, influence of fever, protein metabolism, and thyroid function on energy balance following (Miksche and Caldwell), 66
Fucose, serum protein-bound, in transplantation (Rosato et al.), 935
Functional, and anatomical, vascular alterations associated with electrically produced thrombosis, studies (Porter, Acinapura, and Silver), 920

G

Gas endarterectomy, review of femoral-popliteal reconstruction utilizing (Kaplitt, Sobel, and Sawyer), 872
Gaseous and particulate emboli, effects of, on pulmonary circulation (Cook, Ferrell, and Webb), 910
Gastrectomy, after, iron absorption: an experimental study in dog (Keith et al.), 356
effect of total on Zollinger-Ellison tumor: observations by second-look procedures (Friesen), 609
especially, and general surgery, new instrument for (Pinotti), 975
Gastrectomy—Cont'd
method of total, followed by d-shaped esophageal anastomosis (Daido et al.), 865
of superficial carcinoma, use of intraoperative gastroviewer (Inokuchi and Furusawa), 255
Gastric actinomycosis, intramural (Urdaneta et al.), 431
catheter, illuminated, preliminary report of simplified method employing in transilluminated distention gastrostomy (Edlich et al.), 448
juice secretion, kinetics of (McQuarrie et al.), 475
mucosa, heterotopic, in wall of cystic duct: report of case (Whittaker et al.), 382
mucosal blood flow measured by clearance of Kr^{85}, effect of arterial pCO_2 on (Bell and Battersby), 468
operations, new stapler for (Jascalevich), 1100
tissue histamine, prevention of stress ulcer by reducing (Ritchie, Breen, and Grigg), 596
Gastroenterostomy, roentgen findings 52 years after, congenital pyloric stenosis (Dickinson and Brant), 1092
Gastrointestinal bleeding in neonates: study of 94 cases (Sherman and Clatworthy), 614
blood flow, chronic alterations in, induced by vagotomy (Delaney), 155
Gastrostomy, experimental trocar (Jascalevich), 452
transilluminated distention, preliminary report of simplified method employing illuminated gastric catheter (Edlich et al.), 448
Gastroviewer, intraoperative, use in gastrectomy of superficial carcinoma (Inokuchi and Furusawa), 255
General surgery, especially gastrectomy, new instrument for (Pinotti), 975
Glucagon hypersecretion, role in relationship of pancreatitis and hyperparathyroidism (Paloyan, Paloyan, and Harper), 167
Graft(s), arterial bypass, tunneler (Rob and DeWeese), 393
femoral bypass, new tunneler and graft introducer for (Colt), 978
infections, vascular, use of antibiotics in prevention (Lindenauer et al.), 487
introducer, and new tunneler, for femoral bypass grafts (Colt), 978
rejection, renal, effector mechanisms in (Clark et al.), 770
Growth and function of reimplanted dog lung (Webb et al.), 227

H

Head and face, electrocoagulation in treatment of skin cancers about (Whelan), 1017

Healing of skin wounds, influence of hyperbaric oxygen and multiple skin allografts on (Shulman and Krohn), 1051
Heart valve prostheses, comparison of ball and lens (Cross, Akao, and Jones), 797
Heat and moisture trapping beneath surgical face masks: consideration of factors affecting surgeon's discomfort and performance (Enerson, Eisenfeld, and Kajikuri), 1007
Hemobilia, traumatic: accurate preoperative diagnosis by hepatic artery angiogram (Gundersen and Green), 862
Hemodynamic(s) alterations associated with epidural anesthesia (McLean et al.), 79
during pulmonary artery occlusion (Ebert et al.), 18
Hemostasis, problems in, during open-heart surgery. VIII. On in vivo turnover rate of plasminogen activator after cardiopulmonary bypass (Gans et al.), 292
Heparin neutralization: experimental and clinical studies (Castaneda et al.), 686
Hepatic artery angiogram, accurate preoperative diagnosis by, for traumatic hemobilia (Gundersen and Green), 862
autografts, partial, completely revascularized, role of portal blood in regeneration and function (Price, Voorhees, and Britton), 195
blood flow measured by krypton-85 clearance technique (Birtch, Casey, and Zakheim), 174
coma, experimental: effect of exchange transfusion on metabolism and survival (Turcotte, Mattson, and Child), 189
fibrosis, congenital, as cause of portal hypertension (Hermann and Hawk), 1095
injuries, treatment (Perry et al.), 853
Hernia(s), congenital diaphragmatic, surgically produced, hypoplastic lungs in fetal lambs with (deLorimier, Tierney, and Parker), 12
diaphragmatic, in infancy: factors affecting mortality rate (Johnson, Deaner, and Koop), 1082
foramen of Morgagni, in children (Baran et al.), 1076
hiatus sliding, and reflux esophagitis, treatment by Mark IV technique (Baue and Belsey), 396
spontaneous transverse mesocolic, with re-entry into greater peritoneal cavity: report of case with review of literature (Carlisle and Killen), 268
umbilical, longitudinal repair (Tulcinsky), 560
Heterotopic autotransplantation of canine pancreas (Mitchell and Davidson), 454
gastric mucosa in wall of cystic duct: report of case (Whittaker et al.), 382
Hiatus hernia, sliding, and reflux esophagitis, treatment by Mark IV technique (Baue and Belsey), 396
Hirschsprung's disease, method for elimination of blind rectal pouch in Duhamel operation for (Martin and Caudill), 951
Histamine, gastric tissue, prevention of stress ulcer by reducing (Ritchie, Breen, and Grigg), 596
Histology of cryptorchid testis (Cohn), 536
Historical information, new, on Cleveland operations (Morreels), 542
Homograft(s), aortic valve, fresh, mitral valve replacement with: experimental results and clinical application (Angell, Wuerflein, and Shumway), 807
procurement and preparation (Sands et al.), 839
rejection, renal, in man, studies in hyperacute and chronic (Williams et al.), 204
Hormone, antidiuretic (ADH) control, mechanisms, of importance to surgical patient (Moran and Zimmermann), 639
Humoral antibody, participation in allogeneic organ transplantation rejection (Najarian and Perper), 213
Hunter—Billroth—Wangensteen, their philosophy and accomplishments (Absolon), 567
Hydroxyethyl starch, dextran 75, and dextran 40, plasma expanders, increased blood loss associated with administration of (Karlson et al.), 670
Hyperbaric oxygen and multiple skin allografts, influence, on healing of skin wounds (Shulman and Krohn), 1051
treatment of clostridial infections with (Hitchcock, Haglin, and Arnar), 759
oxygenation, protective effect of, in experimentally produced cerebral edema and compression (Sukoff, Hollin, and Jacobson), 40
Hyperparathyroidism and pancreatitis, relationship, role of glucagon hypersection in (Paloyan, Paloyan, and Harper), 167
Hypersecretion, glucagon, role in relationship of pancreatitis and hyperparathyroidism (Paloyan, Paloyan, and Harper), 167
Hypertension, portal, congenital hepatic fibrosis as cause (Hermann and Hawk), 1095
mesenterorenal shunt for decompression of (Mozes, Tzur, and Bogokowsky), 884
pharmacologic control of (Nusbaum et al.), 299
Hypoplastic lungs in fetal lambs with surgically produced congenital diaphragmatic hernia (deLorimier, Tierney, and Parker), 12
Hypotension, controlled portal and systemic, experimental use for liver resection (Kaplan, Davies, and Heilbrunn), 325

Hypotension—Cont'd
pacemaker-controlled, in surgery (Dimant, Piper, and Murphy), 663
Hypothermia, peritoneal: physiology and indications (Little and Goodman), 346

I

Iliac, and/or common, arteries and veins, excision at periphery of pelvis in patients receiving pelvic exenteration, 1947 to 1964 (Barber and Brunschwig), 426
Illuminated gastric catheter, preliminary report of simplified method employing, in transilluminated distention gastrostomy (Edlich et al.), 448
Immune response, tumor antigens and (McKhann and Harder), 118
Immunity, transplantation, tumor-specific, to spontaneous mouse tumors (Hammond, Fisher, and Rolley), 124
Immunologic aspects of fetus and fetal-maternal relationships (Jackson), 232
Implantation, thyroid and parathyroid: experimental re-evaluation (Fisher et al.), 1025
Infancy, diaphragmatic hernia in: factors affecting mortality rate (Johnson, Deaner, and Koop), 1082
Infants and children, pouch technique in surgical correction of cryptorchidism (Benson and Lotfi), 967
Infection(s), clostridial, treatment, with hyperbaric oxygen (Hitchcock, Haglin, and Arnar), 759
vascular graft, use of antibiotics in prevention (Lindenauer et al.), 487
virus, as trigger of appendicitis: experimental investigation of Coxsackie B_5 virus infection in monkey intestine (Tobe et al.), 927
Inferior vena cava, changes in blood volume and renal function following ligation (Gazzaniga et al.), 417
plication for thromboembolism (De Meester et al.), 56
Influence of hyperbaric oxygen and multiple skin allografts on healing of skin wounds (Shulman and Krohn), 1051
Infusion, portal, of angiotensin II, pressor response to (Abrams), 103
Injured small bowel segments, electromyography to determine viability of, experimental study with preliminary clinical observations (Schamaun), 899
Injury(ies), childhood deaths due to (Perry and Venters), 620
hepatic, treatment (Perry et al.), 853
Instruction, computer-assisted, in undergraduate surgical education (Fonkalsrud, Hammidi, and Maloney), 141
Instructive chapter in management of contaminated wounds, military surgeons, old and new (Wangensteen and Wangensteen), 1102
Instrument, new, for general surgery, especially gastrectomy (Pinotti), 975
Intestine, monkey, experimental investigation of Coxsackie B_5 virus infection in, as trigger of appendicitis (Tobe et al.), 927
stomach, and pancreas, transplantation: experimental and clinical observations (Lillehei et al.), 721
Intracellular defect produced by renal ischemia (Fraley and Malt), 221
Intramural gastric actinomycosis (Urdaneta et al.), 431
Intramyocardial foreign bodies, behavior of: experimental study (Holdefer et al.), 1070
Intraoperative cholangiomanometry, primary closure of common bile duct, technique and indications of choledochotomy and, some current problems of biliary tract surgery (Krauss and Kern), 983
gastroviewer and its use in gastrectomy of superficial carcinoma (Inokuchi and Furusawa), 255
Introducer, graft, and new tunneler, for femoral bypass grafts (Colt), 978
Iron absorption after gastrectomy: experimental study in dog (Keith et al.), 356
Irrigation, peritoneal, with antibiotic solution, clinical evaluation (Noon et al.), 73
Ischemia, renal, intracellular defect produced by (Fraley and Malt), 221
Ischiorectal fossa, defects in, method for closure (Ger), 260

J

Jugular venous oxygen saturation as index of adequacy of cerebral oxygenation (Larson et al.), 31
Junction, choledochoduodenal, normal luminal size of, as determined by probe at choledochostomy (Braasch and McCann), 258

K

Kidney transplantation: experiences at University of Minnesota Hospitals (Kelly et al.), 704
Kinetics of gastric juice secretion (McQuarrie et al.), 475
Krypton-85 clearance technique, hepatic blood flow measured by (Birtch, Casey, and Zakheim), 174
effect of arterial pCO_2 on gastric mucosal blood flow measured by clearance of (Bell and Battersby), 468

L

Leakage, simple method for prevention of, around prosthetic mitral valves (Robicsek, Sanger, and Daugherty), 290

Left main coronary artery, length of (Green, Bernstein, and Reppert), 1021

Lens, and ball, heart valve prostheses, comparison (Cross, Akao, and Jones), 797

Leukemia, human, culture of, simplified perfusion system for growth of colonies of human neoplasms (Folkman, Winsey, and Moghul), 110

Ligation, experimental, of superior mesenteric artery, effect, on serum xanthine oxidase and transaminase activity (Dagher, Panossian, and Saab), 1044

inferior vena cava, changes in blood volume and renal function following (Gazzaniga et al.), 417

Light and electron microscopic study of cellular and ultrastructural changes in endotoxemia (DePalma et al.), 505

Liver(s) in dogs, simplified method for orthotopic transplantation (Satomura et al.), 915

perfusion of, following side-to-side portacaval shunt (Britton, Voorhees, and Price), 181

rat, effect of implanted electrodes on tumor metastases in (Gardner, Sterling, and Brown), 361

resection, experimental use of controlled portal and systemic hypotension for (Kaplan, Davies, and Heilbrunn), 325

transplantation, canine, allogenic, with cadaver donors (Fonkalsrud et al.), 333

traumatized canine, extrahepatic biliary decompression in (Lane, Johnson, and Walker), 1039

Loss, postburn surface water, caloric significance of (Jelenko and Buxton), 994

Luminal size, normal, of choledochoduodenal junction as determined by probe at choledochostomy (Braasch and McCann), 258

Lung(s), dog, reimplanted, growth and function (Webb et al.), 227

hypoplastic, in fetal lambs with surgically produced congenital diaphragmatic hernia (deLorimier, Tierney, and Parker), 12

Lymph node cell trapping, regional, effect of systemic chemotherapeutic agents (Howe and Stahl), 516

M

Main coronary artery, left, length (Green, Bernstein, and Reppert), 1021

Malignant and benign esophageal tumors, our experience in surgical treatment (Petrovsky and Vantsian), 833

Malignant—Cont'd

chest wall sarcoma with bilateral pulmonary metastases: fifteen-year survival after multiple radical local excision and resection of bilateral pulmonary metastases and successful treatment of scoliosis secondary to tumor surgery (Winter and Tongen), 374

pleural effusions, recurrent, and talc powder aerosol treatment (Adler and Rappole), 1000

Management of contaminated wounds, instructive chapter in, military surgeons, old and new (Wangensteen and Wangensteen), 1102

surgical, of acute bleeding from peptic ulcers (Feltis and Hamit), 988

Mark IV technique, treatment of sliding hiatus hernia and reflux esophagitis by (Baue and Belsey), 396

Masks, surgical face, heat and moisture trapping beneath: consideration of factors affecting surgeon's discomfort and performance (Enerson, Eisenfeld, and Kajikuri), 1007

Maternal-fetal relationships, and fetus, immunologic aspects (Jackson), 232

Mechanical and biologic considerations in erythrocyte damage (Indeglia et al.), 47

Medical education, new approach (Anlyan and Sabiston), 134

Meeting of Society of University Surgeons, Toronto, Ontario, Canada, February 9, 10, and 11, 1967 (Menguy), 238

Mesenteric artery, superior, effect of experimental ligation, on serum xanthine oxidase and transaminase activity (Dagher, Panossian, and Saab), 1044

Mesenterorenal shunt for decompression of portal hypertension (Mozes, Tzur, and Bogokowsky), 884

Mesocolic hernia, spontaneous transverse, with reentry into greater peritoneal cavity: report of case with review of literature (Carlisle and Killen), 268

Metabolism, protein, fever, and thyroid function, influence, on energy balance following bilateral fracture of femur in rat (Miksche and Caldwell), 66

and survival, effect of exchange transfusion on, in experimental hepatic coma (Turcotte, Mattson, and Child), 189

Metastases, bilateral pulmonary, malignant chest wall sarcoma with: fifteen-year survival after multiple radical local excision and resection of bilateral pulmonary metastases and successful treatment of scoliosis secondary to tumor surgery (Winter and Tongen), 374

Metastases—Cont'd
tumor, in rat liver, effect of implanted electrodes (Gardner, Sterling, and Brown), 361
Method for closure of defects in ischiorectal fossa (Ger), 260
simple, for prevention of leakage around prosthetic mitral valves (Robicsek, Sanger, and Daugherty), 290
Microscopic study, light and electron, of cellular and ultrastructural changes in endotoxemia (DePalma et al.), 505
Microsurgical technique in anastomosis between thoracic duct and esophagus (Oh et al.), 340
Military surgeons and surgery, old and new: instructive chapter in management of contaminated wounds (Wangensteen and Wangensteen), 1102
Minnesota, experiences at University of, Hospitals: kidney transplantation (Kelly et al.), 704
University of, Medical Center, results in first 2,500 patients undergoing open-heart surgery at (Lillehei et al.), 819
Mitral valve(s), prosthetic, simple method for prevention of leakage around (Robicsek, Sanger, and Daugherty), 290
replacement with fresh aortic valve homograft: experimental results and clinical application (Angell, Wuerflein, and Shumway), 807
Moisture, and heat, trapping beneath surgical face masks: consideration of factors affecting surgeon's discomfort and performance (Enerson, Eisenfeld, and Kajikuri), 1007
Molecules, clotting protein, selectivity of phagocytosis for, derived from two clotting proteins of plasma (Gans et al.), 698
Morgagni, foramen of, hernias in children (Baran et al.), 1076
Mortality rate, factors affecting, diaphragmatic hernia in infancy (Johnson, Deaner, and Koop), 1082
Mucosa(l), gastric, blood flow measured by clearance of Kr^{85}, effect of arterial pCO_2 (Bell and Battersby), 468
heterotopic, in wall of cystic duct: report of case (Whittaker et al.), 382
Multiple skin allografts, and hyperbaric oxygen, influence, on healing of skin wounds (Shulman and Krohn), 1051
Myocardial augmentation, postsystolic, effect on myocardial perfusion following acute coronary occlusion (Wyant et al.), 499

N

Neck, arteriovenous fistulas of vertebral artery in, further experience with (Chou et al.), 779
Neonate(s), gastrointestinal bleeding: study of 94 cases (Sherman and Clatworthy), 614
surgical, acid-base status, on admission to hospital (Srouji), 958
Neoplasms, human, simplified perfusion system for growth of colonies, in culture of human leukemia (Folkman, Winsey, and Moghul), 110
Nervous system, central, influences on pancreatic secretion, sphincteric mechanisms, and blood flow and their role in course of pancreatitis (Gilsdorf et al.), 581
role, in pathogenesis of dumping syndrome (Silver, Rignault, and McGregor), 148
Neutralization, heparin: experimental and clinical studies (Castaneda et al.), 686
New, and old, military surgeons and surgery: instructive chapter in management of contaminated wounds (Wangensteen and Wangensteen), 1102
stapler for gastric operations (Jascalevich), 1100
Node, lymph, regional, cell trapping, effect of systemic chemotherapeutic agents (Howe and Stahl), 516
Normal luminal size of choledochoduodenal junction as determined by probe at choledochostomy (Braasch and McCann), 258

O

Obstruction, duodenal diaphragmatic, with pneumoperitoneum presenting in 13-year-old girl (Hase, Shaw, and Gould), 530
Occlusion, acute coronary, effect of postsystolic myocardial augmentation on myocardial perfusion following (Wyant et al.), 499
pulmonary artery, hemodynamics during (Ebert et al.), 18
venous, augmentation of blood flow during (Bergan et al.), 366
Old and new, military surgeons and surgery: instructive chapter in management of contaminated wounds (Wangensteen and Wangensteen), 1102
Open-heart surgery, problems in hemostasis during. VIII. On in vivo turnover rate of plasminogen activator after cardiopulmonary bypass (Gans et al.), 292
at University of Minnesota Medical Center, results in first 2,500 patients undergoing (Lillehei et al.), 819
Operation, validity of comparisons of plasma volumes before and after (Knott and Kirklin), 843
Organ transplantation rejection, allogeneic, participation of humoral antibody (Najarian and Perper), 213
Orthotopic transplantation of liver in dogs, simplified method (Satomura et al.), 915

Oxidase, serum xanthine, and transaminase activity, effect of experimental ligation of superior mesenteric artery (Dagher, Panossian, and Saab), 1044
Oxygen, hyperbaric, and multiple skin allografts, influence, on healing of skin wounds (Shulman and Krohn), 1051
treatment of clostridial infections with (Hitchcock, Haglin, and Arnar), 759
saturation, jugular venous, as index of adequacy of cerebral oxygenation (Larson et al.), 31
Oxygenation, cerebral, jugular venous oxygen saturation as index of adequacy of (Larson et al.), 31
hyperbaric, protective effect in experimentally produced cerebral edema and compression (Sukoff, Hollin, and Jacobson), 40

P

Pacemaker-controlled hypotension in surgery (Dimant, Piper, and Murphy), 663
Pancreas, canine, heterotopic autotransplantation of (Mitchell and Davidson), 454
stomach, and intestine, transplantation of: experimental and clinical observations (Lillehei et al.), 721
Pancreatitis, central nervous system influences on pancreatic secretion, sphincteric mechanisms, and blood flow and their role in course (Gilsdorf et al.), 581
duodenal reflux and etiology of (Johnson and Doppman), 462
experimental alcoholic, studies in dog (Cueto, Tajen, and Zimmermann), 159
and hyperparathyroidism, relationship, role of glucagon hypersection in (Paloyan, Paloyan, and Harper), 167
Parathyroid, and thyroid, implantations: experimental re-evaluation (Fisher et al.), 1025
surgery, effect, on EDTA response in rat (Reeve), 493
Parietal cell activity, correlation, with ultrastructural alterations (Adkins, Ende, and Gobbel), 1059
Particulate, and gaseous, emboli, effects, on pulmonary circulation (Cook, Ferrell, and Webb), 910
Patency, vascular, preservation, as function of reticuloendothelial clearance. II. Selectivity of phagocytosis for different clotting protein molecules derived from two clotting proteins of plasma (Gans et al.), 698
Pathogenesis of dumping syndrome, role of nervous system in (Silver, Rignault, and McGregor), 148
pCO_2, arterial, effect on gastric mucosal blood flow measured by clearance of Kr^{85} (Bell and Battersby), 468
Pelvic exenteration, excision of common and/or iliac arteries and veins at periphery of pelvis in patients receiving (Barber and Brunschwig), 426
and shoulder girdles, management of giant cartilaginous tumors (Pack), 405
Peptic ulcers, surgical management of acute bleeding from (Feltis and Hamit), 988
Performance, and discomfort, consideration of factors affecting surgeon's, heat and moisture trapping beneath surgical face masks (Enerson, Eisenfeld, and Kajikuri), 1007
Perfusion of liver following side-to-side portacaval shunt (Britton, Voorhees, and Price), 181
myocardial, effect of postsystolic myocardial augmentation on following acute coronary occlusion (Wyant et al.), 499
system, simplified, for growth of colonies of human neoplasms in culture of human leukemia (Folkman, Winsey, and Moghul), 110
Peritoneal cavity, greater, spontaneous transverse mesocolic hernia with re-entry into: report of case with review of literature (Carlisle and Killen), 268
hypothermia: physiology and indications (Little and Goodman), 346
irrigation with antibiotic solution, clinical evaluation of (Noon et al.), 73
trauma, experimental and clinical studies (Root, Keizer, and Perry), 679
Phagocytosis, selectivity, for different clotting protein molecules derived from two clotting proteins of plasma. Preservation of vascular patency as function of reticuloendothelial clearance. II. (Gans et al.), 698
Pharmacologic control of portal hypertension (Nusbaum et al.), 299
Philosophy and accomplishments, Hunter—Billroth—Wangensteen (Absolon), 567
Plasma expanders, certain, increased blood loss associated with administration of: dextran 75, dextran 40, and hydroxyethyl starch (Karlson et al.), 670
selectivity of phagocytosis for different clotting protein molecules derived from two clotting proteins of (Gans et al.), 698
volumes before and after operation, validity of comparisons (Knott and Kirklin), 843
Plasminogen activator, in vivo turnover rate, after cardiopulmonary bypass; problems in hemostasis during open-heart surgery (Gans et al.), 292
Pleural effusions, recurrent malignant, and talc powder aerosol treatment (Adler and Rappole), 1000

Plication of inferior vena cava for thromboembolism (De Meester et al.), 56
vena cava for pulmonary embolism (Spencer), 388
Pneumoperitoneography, bilateral diaphragmatic eventration demonstrated by (Firestone and Taybi), 954
Pneumoperitoneum, duodenal diaphragmatic obstruction with, presenting in 13-year-old girl (Hase, Shaw, and Gould), 530
Polyps of colon, anotransabdominal approach (Benjamin et al.), 411
Portacaval anastomoses, S-adenosylmethionine following (Baldessarini and Fischer), 311
shunt, side-to-side, perfusion of liver following (Britton, Voorhees, and Price), 181
Portal blood, role in regeneration and function of completely revascularized partial hepatic autografts (Price, Voorhees, and Britton), 195
hypertension, congenital hepatic fibrosis as cause (Hermann and Hawk), 1095
mesenterorenal shunt for decompression of (Mozes, Tzur, and Bogokowsky), 884
pharmacologic control (Nusbaum et al.), 299
and systemic hypotension, controlled, experimental use for liver resection (Kaplan, Davies, and Heilbrunn), 325
Postburn surface water loss, caloric significance (Jelenko and Buxton), 994
Postsystolic myocardial augmentation, effect on myocardial perfusion following acute coronary occlusion (Wyant et al.), 499
Pouch, blind rectal, in Duhamel operation for Hirschsprung's disease, method for elimination (Martin and Caudill), 951
technique in surgical correction of cryptorchidism in infants and children (Benson and Lotfi), 967
Powder, talc, aerosol treatment, recurrent malignant pleural effusions and (Adler and Rappole), 1000
Power dissipation in systemic and pulmonary vasculature of dogs (Wilcox et al.), 25
Predecessor, Chinese (Robb), 409
Preparation and procurement, of aortic valve homografts (Sands et al.), 839
Pressor response to portal infusion of angiotensin II (Abrams), 103
Pressure-flow relations of end-side anastomosis (Schultz, Hokanson, and Strandness), 319
Prevention of stress ulcer by reducing gastric tissue histamine (Ritchie, Breen, and Grigg), 596
Primary closure of common bile duct, choledochotomy, intraoperative cholangiomanometry, technique and indications of, some current problems of biliary tract surgery (Krauss and Kern), 983
Priming in cardiopulmonary bypass, diluents for (Blakemore), 981
Problems, some current, of biliary tract surgery: indications and technique of choledochotomy, intraoperative cholangiomanometry, primary closure of common bile duct (Krauss and Kern), 983
Procidentia, rectal, surgical correction (Devadhar), 847
Procurement and preparation of aortic valve homografts (Sands et al.), 839
Prostheses, heart valve, comparison of ball and lens (Cross, Akao, and Jones), 797
Prosthetic mitral valves, simple method for prevention of leakage around (Robicsek, Sanger, and Daugherty), 290
Protein-bound fucose, serum, in transplantation (Rosato et al.), 935
metabolism, fever, and thyroid function, influence on energy balance following bilateral fracture of rat femur (Miksche and Caldwell), 66
molecules, clotting, selectivity of phagoctyosis for, derived from two clotting proteins of plasma. Preservation of vascular patency as a function of reticuloendothelial clearance. II (Gans et al.), 698
Pseudomonas pyosalpinx: report of, child with adrenogenital syndrome who recently recovered from varicella (Fisher), 379
Pulmonary, bilateral metastases, malignant chest wall sarcoma with: fifteen-year survival after multiple radical local excision and resection of bilateral pulmonary metastases and successful treatment of scoliosis secondary to tumor surgery (Winter and Tongen), 374
circulation, effects of gaseous and particulate emboli (Cook, Ferrell, and Webb), 910
disease: fat embolism (Peltier), 756
embolism, plication of vena cava for (Spencer), 388
emphysematous cysts, giant, excision: 20 cases without deaths (Fain et al.), 552
and systemic vasculature of dogs, power dissipation in (Wilcox et al.), 25
Purification, partial, and characterization, of sialogastrone (Menguy, Masters, and Manzi), 891
Pyloric stenosis, congenital: roentgen findings 52 years after gastroenterostomy (Dickinson and Brant), 1092
Pyosalpinx, Pseudomonas: report of child with adrenogenital syndrome who recently recovered from varicella (Fisher), 379

R

Reconstruction, femoral-popliteal, utilizing gas endarterectomy, review (Kaplitt, Sobel, and Sawyer), 872

Rectal pouch, blind, in Duhamel operation for Hirschsprung's disease, method for elimination (Martin and Caudill), 951
procidentia, surgical correction (Devadhar), 847
Recurrent malignant pleural effusions and talc powder aerosol treatment (Adler and Rappole), 1000
Re-evaluation, experimental, thyroid and parathyroid implantations (Fisher et al.), 1025
Reflux, duodenal, and etiology of pancreatitis (Johnson and Doppman), 462
esophagitis, and sliding hiatus hernia, treatment by Mark IV technique (Baue and Belsey), 396
Regeneration and function of completely revascularized partial hepatic autografts, role of portal blood in (Price, Voorhees, and Britton), 195
Reimplanted dog lung, growth and function (Webb et al.), 227
Reinfusion, of unmodified autogenous ascitic fluid, treatment of intractable ascites by (Pearlman and Duremdes), 248
Rejection, allogeneic organ transplantation, participation of humoral antibody in (Narjarian and Perper), 213
hyperacute and chronic renal homograft, studies in man (Williams et al.), 204
renal graft, effector mechanisms in (Clark et al.), 770
Renal arteriovenous fistulae: review of literature and report of successfully treated case (Papadopoulos and Manoli), 285
function and blood volume, changes in, following ligation of inferior vena cava (Gazzaniga et al.), 417
graft rejection, effector mechanisms in (Clark et al.), 770
homograft rejection in man, studies in hyperacute and chronic (Williams et al.), 204
ischemia, intracellular defect produced by (Fraley and Malt), 221
Repair of endocardial cushion defects (Shippey et al.), 274
longitudinal, of umbilical hernia (Tulcinsky), 560
Replacement, cardiac, recent advances in (Shumway, Angell, and Wuerflein), 794
volume, following acute bleeding compared to replacement after hemorrhagic shock: effectiveness of dextran and buffered saline (Rush and Morehouse), 88
Resection and end-to-end anastomosis in management of atresia and stenosis of small bowel (Louw), 940
liver, experimental use of controlled portal and systemic hypotension (Kaplan, Davies, and Heilbrunn), 325
Response, immune, tumor antigens and (McKhann and Harder), 118
pressor, to portal infusion of angiotensin II (Abrams), 103
Reticuloendothelial clearance, preservation of vascular patency as function of. II. Selectivity of phagocytosis for different clotting protein molecules derived from two clotting proteins of plasma (Gans et al.), 698
Revascularized, completely, partial hepatic autografts, role of portal blood in regeneration and function (Price, Voorhees, and Britton), 195
Review of femoral-popliteal reconstruction utilizing gas endarterectomy (Kaplitt, Sobel, and Sawyer), 872
Roentgen findings 52 years after gastroenterostomy, congenital pyloric stenosis (Dickinson and Brant), 1092
Rubber-shod clamp, substitute for (Gustafson), 266

S

S-adenosylmethionine following portacaval anastomoses (Baldessarini and Fischer), 311
Saline, buffered, and dextran, effectiveness, in volume replacement following acute bleeding compared to replacement after hemorrhagic shock (Rush and Morehouse), 88
Sarcoma, malignant, chest wall, with bilateral pulmonary metastases: fifteen-year survival after multiple radical local excision and resection of bilateral pulmonary metastases and successful treatment of scoliosis secondary to tumor surgery (Winter and Tongen), 374
Saturation, oxygen, jugular venous, as index of adequacy of cerebral oxygenation (Larson et al.), 31
Scoliosis, secondary to tumor surgery, successful treatment of: fifteen-year survival after multiple radical local excision and resection of bilateral pulmonary metastases and (Winter and Tongen), 374
Secretion, gastric juice, kinetics of (McQuarrie et al.), 475
pancreatic, sphincteric mechanisms, and blood flow and their role in course of pancreatitis, central nervous system influences on (Gilsdorf et al.), 581
Segment(s), colon bypass, technique for increasing length (Leininger, Lal, and Neville), 888
injured small bowel, electromyography to determine viability of, experimental study with preliminary clinical observations (Schamaun), 899

Self-locking vena cava clip (Ahlquist and Durham), 974
Septic shock, alkalosis in (MacLean et al.), 655
Serum, anti-lymphocyte, in rats, prolongation of skin allografts with (Grogan and Hardy), 352
protein-bound fucose in transplantation (Rosato et al.), 935
xanthine oxidase and transaminase activity, effect of experimental ligation of superior mesenteric artery (Dagher, Panossian, and Saab), 1044
Shock, hemorrhagic, volume replacement after, compared to replacement following acute bleeding: effectiveness of dextran and buffered saline (Rush and Morehouse), 88
mechanisms in production (Dietzman et al.), 645
septic, alkalosis in (MacLean et al.), 655
Shoulder, and pelvic, girdles, management of giant cartilaginous tumors (Pack), 405
Shunt, mesenterorenal, for decompression of portal hypertension (Mozes, Tzur, and Bogokowsky), 884
side-to-side portacaval, perfusion of liver following (Britton, Voorhees, and Price), 181
Sialogastrone, characterization and partial purification of (Menguy, Masters, and Manzi), 891
Side-to-side portacaval shunt, perfusion of liver following (Britton, Voorhees, and Price), 181
Skin allografts, multiple, and hyperbaric oxygen, influence, on healing of skin wounds (Shulman and Krohn), 1051
prolongation, with anti-lymphocyte serum in rats (Grogan and Hardy), 352
cancers about head and face, electrocoagulation in treatment (Whelan), 1017
wounds, healing, influence of hyperbaric oxygen and multiple skin allografts (Shulman and Krohn), 1051
Sliding hiatus hernia and reflux esophagitis, treatment by Mark IV technique (Baue and Belsey), 396
Small bowel, resection and end-to-end anastomosis in management of atresia and stenosis (Louw), 940
segments, injured, electromyography to determine viability of, experimental study with preliminary clinical observations (Schamaun), 899
Social change, and surgical education (Russell), 561
Society of University Surgeons, meeting, Toronto, Ontario, Canada, February 9, 10, and 11, 1967 (Menguy), 238
Solution, antibiotic, clinical evaluation of peritoneal irrigation with (Noon et al.), 73
Sphincteric mechanisms, pancreatic secretion, and blood flow and their role in course of pancreatitis, central nervous system influences on (Gilsdorf et al.), 581
Sphincteroplasty, physiologic evaluation (Vajcner, Grossling, and Nicoloff), 589
Spontaneous transverse mesocolic hernia with reentry into greater peritoneal cavity: report of case with review of literature (Carlisle and Killen), 268
Stapler, new, for gastric operations (Jascalevich), 1100
Starch, hydroxyethyl, dextran 75, and dextran 40, plasma expanders, increased blood loss associated with administration of (Karlson et al.), 670
Stenosis, and atresia, of small bowel, resection and end-to-end anastomosis in management (Louw), 940
pyloric, congenital: roentgen findings 52 years after gastroenterostomy (Dickinson and Brant), 1092
Stomach, intestine, and pancreas, transplantation of: experimental and clinical observations (Lillehei et al.), 721
Stress ulcer, prevention, by reducing gastric tissue histamine (Ritchie, Breen, and Grigg), 596
Stricture, biliary (Aust et al.), 601
Superficial carcinoma, gastrectomy, use of intraoperative gastroviewer (Inokuchi and Furusawa), 255
Superior mesenteric artery, effect of experimental ligation, on serum xanthine oxidase and transaminase activity (Dagher, Panossian, and Saab), 1044
Surface water loss, postburn, caloric significance (Jelenko and Buxton), 994
Surgeon(s), academic (Waldhausen), 979
discomfort and performance, consideration of factors affecting, heat and moisture trapping beneath surgical face masks (Enerson, Eisenfeld, and Kajikuri), 1007
military, old and new: instructive chapter in management of contaminated wounds (Wangensteen and Wangensteen), 1102
Surgery, academic, development in Chicago (Kittle), 1
open-heart, problems in hemostasis during. VIII. On in vivo turnover rate of plasminogen activator after cardiopulmonary bypass (Gans et al.), 292
Surgical correction of cryptorchidism in infants and children, pouch technique (Benson and Lotfi), 967
education and social change (Russell), 561
undergraduate, computer-assisted instruction (Fonkalsrud, Hammidi, and Maloney), 141

Surgical—Cont'd
face masks, heat and moisture trapping beneath: consideration of factors affecting surgeon's discomfort and performance (Enerson, Eisenfeld, and Kajikuri), 1007
neonate on admission to hospital, acid-base status of (Srouji), 958
patients, computer techniques in care of (Lewis), 630
treatment of malignant and benign esophageal tumors, our experience (Petrovsky and Vantsian), 833
Syndrome, adrenogenital, in child who recently recovered from varicella, associated with Pseudomonas pyosalpinx (Fisher), 379
dumping, pathogenesis, role of nervous system (Silver, Rignault, and McGregor), 148
System, central nervous, influences on pancreatic secretion, sphincteric mechanisms, and blood flow and their role in course of pancreatitis (Gilsdorf et al.), 581
nervous, role in pathogenesis of dumping syndrome (Silver, Rignault, and McGregor), 148
simplified perfusion, for growth of colonies of human neoplasms: culture of human leukemia (Folkman, Winsey, and Moghul). 110
Systemic chemotherapeutic agents, effect upon regional lymph node cell trapping (Howe and Stahl), 516
and portal hypotension, controlled, experimental use for liver resection (Kaplan, Davies, and Heilbrunn), 325
and pulmonary vasculature of dogs, power dissipation in (Wilcox et al.), 25

T

Talc powder aerosol treatment, recurrent malignant pleural effusions and (Adler and Rappole), 1000
Teaching beds, forty-one thousand unused (Malette and Bradley), 407
Technique, and indications, of choledochotomy, intraoperative cholangiomanometry, primary closure of common bile duct, some current problems of biliary tract surgery (Krauss and Kern), 983
krypton-85 clearance, hepatic blood flow measured by (Birtch, Casey, and Zakheim), 174
Testis, cryptorchid, histology (Cohn), 536
Thoracic and cardiovascular surgery, autologous blood transfusion in (Cuello et al.), 814
duct and esophagus, anastomosis between, with microsurgical technique (Oh et al.), 340
Thromboembolism, plication of inferior vena cava for (De Meester et al.), 56
Thrombosis, electrically produced, studies of anatomical and functional vascular alterations associated with (Porter, Acinapura, and Silver), 920
Thyroid disease, place of total thyroidectomy in management (Perzik and Catz), 436
function, fever, and protein metabolism, influence on energy balance following bilateral fracture of femur in rat (Miksche and Caldwell), 66
and parathyroid implantations: experimental reevaluation (Fisher et al.), 1025
surgery, effect on EDTA response in rat (Reeve), 493
Thyroidectomy, total, place in management of thyroid disease (Perzik and Catz), 436
Tissue, gastric, histamine, prevention of stress ulcer by reducing (Ritchie, Breen, and Grigg), 596
Tracheostomy hook (Chernov), 296
Tract, biliary, surgery, some current problems: indications and technique of choledochotomy, intraoperative cholangiomanometry, primary closure of common bile duct (Krauss and Kern), 983
Transaminase activity, and serum xanthine oxidase, effect of experimental ligation of superior mesenteric artery on (Dagher, Panossian, and Saab), 1044
Transfusion, autologous blood, in thoracic and cardiovascular surgery (Cuello et al.), 814
exchange, effect on metabolism and survival in experimental hepatic coma (Turcotte, Mattson, and Child), 189
Transilluminated distention gastrostomy, preliminary report of simplified method with illuminated gastric catheter (Edlich et al.), 448
Transplantation immunity, tumor-specific, to spontaneous mouse tumors (Hammond, Fisher, and Rolley), 124
kidney: experiences at University of Minnesota Hospitals (Kelly et al.), 704
organ, allogeneic rejection, participation of humoral antibody (Najarian and Perper), 213
orthotopic, of liver in dogs, simplified method (Satomura et al.), 915
serum protein-bound fucose in (Rosato et al.), 935
of stomach, intestine, and pancreas: experimental and clinical observations (Lillehei et al.), 721
Transverse mesocolic hernia, spontaneous, with re-entry into the greater peritoneal cavity: report of case with review of literature (Carlisle and Killen), 268

Trapping, cell, regional lymph node, effect of systemic chemotherapeutic agents (Howe and Stahl), 516
heat and moisture, beneath surgical face masks: consideration of factors affecting surgeon's discomfort and performance (Enerson, Eisenfeld, and Kajikuri), 1007
Trauma, peritoneal, experimental and clinical studies (Root, Keizer, and Perry), 679
Traumatic hemobilia: accurate preoperative diagnosis by hepatic artery angiogram (Gundersen and Green), 862
Treatment of hepatic injuries (Perry et al.), 853
intractable ascites by reinfusion of unmodified autogenous ascitic fluid (Pearlman and Duremdes), 248
skin cancers about head and face, electrocoagulation in (Whelan), 1017
talc powder aerosol, recurrent malignant pleural effusions and (Adler and Rappole), 1000
Trocar gastrostomy, experimental (Jascalevich), 452
Tumor(s) antigens and immune response (McKhann and Harder), 118
carotid body, surgical management (Grage and Cueto), 742
giant cartilaginous, of pelvic and shoulder girdles, management (Pack), 405
metastases in rat liver, effect of implanted electrodes (Gardner, Sterling, and Brown), 361
-specific transplantation immunity to spontaneous mouse tumors (Hammond, Fisher, and Rolley), 124
surgery, successful treatment of scoliosis secondary to: fifteen-year survival after multiple radical local excision and resection of bilateral pulmonary metastases and (Winter and Tongen), 374
Zollinger-Ellison, effect of total gastrectomy: observations by second-look procedures (Friesen), 609
Tunneler for arterial bypass grafts (Rob and DeWeese), 393
new, and graft introducer for femoral bypass grafts (Colt), 978
Turnover rate, in vivo, of plasminogen activator after cardiopulmonary bypass; problems in hemostasis during open-heart surgery (Gans et al.), 292

U

Ulcer(s), peptic, surgical management of acute bleeding from (Feltis and Hamit), 988
stress, prevention, by reducing gastric tissue histamine (Ritchie, Breen, and Grigg), 596
Ultrastructural alterations, correlation of parietal cell activity with (Adkins, Ende, and Gobbel), 1059
Ultrastructural—Cont'd
and cellular changes in endotoxemia: light and electron microscopic study (DePalma et al.), 505
Umbilical hernia, longitudinal repair (Tulcinsky), 560
University of Minnesota Medical Center, results in first 2,500 patients undergoing open-heart surgery at (Lillehei et al.), 819
Surgeons, Society of, meeting, Toronto, Ontario, Canada, February 9, 10, and 11, 1967 (Menguy), 238

V

Vagotomy, chronic alterations in gastrointestinal blood flow induced by (Delaney), 155
Validity of comparisons of plasma volumes before and after operation (Knott and Kirklin), 843
Valve(s), aortic, homografts, procurement and preparation (Sands et al.), 839
heart, prostheses, comparison of ball and lens (Cross, Akao, and Jones), 797
homograft, fresh aortic, mitral valve replacement with: experimental results and clinical application (Angell, Wuerflein, and Shumway), 807
prosthetic mitral, simple method for prevention of leakage around (Robicsek, Sanger, and Daugherty), 290
replacement, mitral, with fresh aortic valve homografts: experimental results and clinical application (Angell, Wuerflein, and Shumway), 807
Varicella, and Pseudomonas pyosalpinx in child with adrenogenital syndrome (Fisher), 379
Vascular alterations, anatomical and functional, associated with electrically produced thrombosis, studies (Porter, Acinapura, and Silver), 920
graft infections, use of antibiotics in prevention (Lindenauer et al.), 487
patency, preservation, as function of reticuloendothelial clearance. II. Selectivity of phagocytosis for different clotting protein molecules derived from two clotting proteins of plasma (Gans et al.), 698
Vasculature, systemic and pulmonary, of dogs, power dissipation in (Wilcox et al.), 25
Vein(s) and common and/or iliac arteries, excision, at periphery of pelvis in patients receiving pelvic exenteration, 1947 to 1964 (Barber and Brunschwig), 426
jugular, oxygen saturation as index of adequacy of cerebral oxygenation (Larson et al.), 31

Vena cava clip, self-locking (Ahlquist and Durham), 974
inferior, changes in blood volume and renal function following ligation (Gazzaniga et al.), 417
plication for thromboembolism (De Meester et al.), 56
plication for pulmonary embolism (Spencer), 388
Venous occlusion, augmentation of blood flow during (Bergan et al.), 366
Vertebral artery in neck, further experience with arteriovenous fistulas (Chou et al.), 779
Viability of injured small bowel segments, electromyography to determine, experimental study with preliminary clinical observations (Schamaun), 899
Viral etiology, possible, of human breast cancer, studies (Feller, Chopra, and Bepko), 750
Virus infection as trigger of appendicitis: experimental investigation of Coxsackie B_5 virus infection in monkey intestine (Tobe et al.), 927
Volume(s), plasma, before and after operation, validity of comparisons (Knott and Kirklin), 843
Volume—Cont'd
replacement following acute bleeding compared to replacement after hemorrhagic shock: effectiveness of dextran and buffered saline (Rush and Morehouse), 88

W

Wangensteen—Hunter—Billroth, their philosophy and accomplishments (Absolon), 567
Water loss, postburn surface, caloric significance (Jelenko and Buxton), 994
Wounds, contaminated, instructive chapter in management, military surgeons, old and new (Wangensteen and Wangensteen), 1102
skin, healing of, influence of hyperbaric oxygen and multiple skin allografts (Shulman and Krohn), 1051

X

Xanthine oxidase, serum, and transaminase activity, effect of experimental ligation of superior mesenteric artery (Dagher, Panossian, and Saab), 1044

Z

Zollinger-Ellison tumor, effect of total gastrectomy on: observations by second-look procedures (Friesen), 609
